

To Whom It May Concern;

20 November, 2017

I am writing to enthusiastically recommend Mr. Jason C. Perez for a position as a senior graphic artist / industrial artist and project leader. Jason is a man of exceptional vision, creativity, enthusiasm and dedication. I had the great pleasure of working with Jason through most of 2016 and early 2017, and I am quite certain that his exceptional creative talents and drive would provide great benefit to any project he undertakes.

I am a member of the Board of Directors of the Flight Path Museum and Learning Center in Los Angeles, CA. In late 2015 the museum began a project to develop and install a new gallery dedicated to the history of space flight and space exploration. I was placed in charge of that project. While I was assembling the creative team to execute the project, a mutual acquaintance introduced me to Jason. After a short discussion, it was very clear that he had not only the creative skills, but also the vision and enthusiasm to lead the design and development of the gallery displays and graphical content.

Jason immediately embraced our vision for the gallery, developed it and extended it further to provide a cohesive and flowing display concept. After presenting his concepts to the museum Board and securing its approval, Jason went on to research technical details of the display graphics, to search for or create numerous images and diagrams to populate the gallery graphics, and to help draft, coordinate and finalize the text to accompany the graphics. In all Jason created over 100 individual graphics and display pieces that now form the heart of the museum's Space Exploration Gallery, which has quickly become one of the museum's most popular venues. I have included two photographs; more are available on request.

I am extremely impressed by Jason's creative and technical skills, his insight and determination and his boundless enthusiasm and wit. I highly recommend him for any position that will challenge him and employ his remarkable skills.

Please feel free to contact me at any time.
