

Andrew Conder Steadicam Workshop

14 Nov 2013

SAE Brisbane Film students participated in a Steadicam workshop with highly accomplished Steadicam Operator Andrew Conder ACS at the Brisbane campus on Thursday November 7, 2013.

Andrew demonstrated how to correctly set up, fine tune and operate the Steadicam. Using SAE's Canon C300 and FS700 cameras with the beautiful new Canon Cine prime lenses, students had the opportunity to operate the Steadicam with Andrew's guidance.

Andrew's credits as a Camera Operator include TV series Terra Nova, and the feature films Jindabyne, House of Wax, Peter Pan, Scooby Doo, The Great Raid and Crocodile Dundee in LA. And, as students found out, he's a terrific guy and much fun was had by all involved!
