# TOWNHOME REFRESH

---

Goal - Update and personalize the space for an elegant, nature loving friend

# 「Our Inspiration

---

## **NATURE**

Diane has great taste and is a tireless shopper.

She feels a strong pull toward motifs that include trees, animals and natural materials. She put in many hours curating the objects that give her joy.

Randy, her husband is a thrifter and all round, great guy! Poor Randy :)

# BEFORE

---

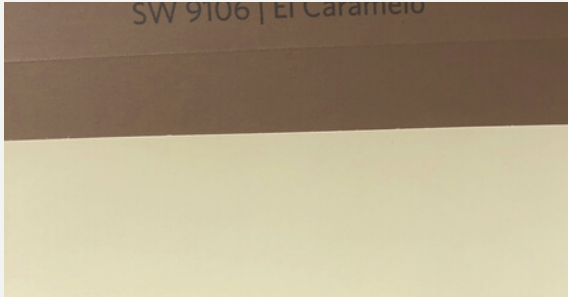

## Challenges:

- existing color palette in browns and beiges.
- outdated light fixtures
- existing furniture and fireplace offered no focal point

# *Design concept*

I wanted to help my client elevate her space through use of color, pattern and texture. The space already had a lovely vibe, but lacked variety and felt a bit bland. The plan was to strengthen the fireplace focal point, brighten and green up the sunroom, broaden the color palette, and bring out the owners personality.

## Goal 1

Define spaces using  
wall paint

## Goal 2

Create a fireplace  
focal point

## Goal 3

Update light fixtures  
and cabinet hardware

# *Design concept, continued*

## goal 4

Add color and texture through the use of paint and fabrics

## goal 5

Highlight the owners personality - and Jack's!

## goal 5

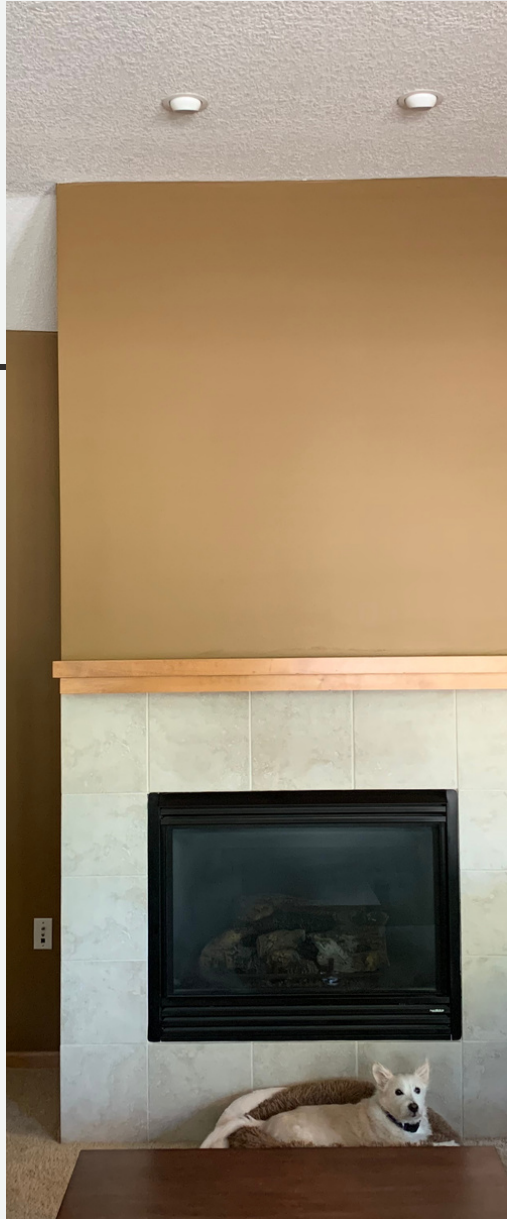

Happy homeowner

# FIREPLACE FOCAL POINT

---

To accent the fireplace, we paired the existing wall color with a deep caramel color from our palette based on a fabric selection that coordinated with existing fabrics

# SUNROOM

---

We brightened and created separation for the sunroom using a with pale yellow-green. The existing sectional has green undertones that were highlighted with pillows originally in the Livingroom. Randy was tasked with using existing paint and a wax application to give an end table new life.

Botanical fern prints, plants and the bamboo floor lamp bring the outdoors in.

Glass cloche fixtures add in contrast with oiled-rubbed bronze metal

Randy found the new hardware while out thrifting! Perfect.

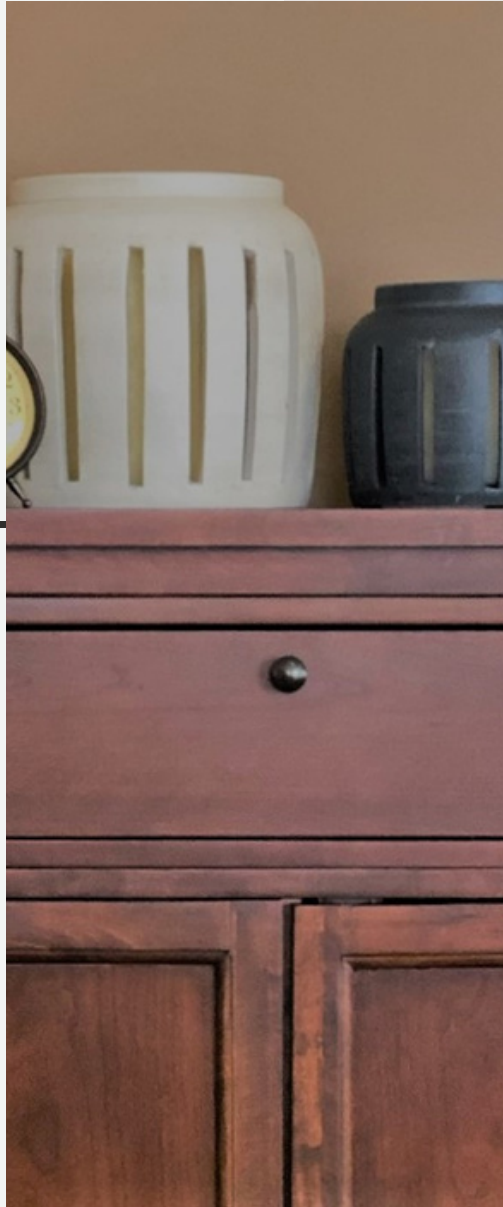

Jack's portrait is displayed for all to enjoy!

# NEW ACCESSORIES

---

Artwork and  
accessories layered to  
add color and texture

# DETAILS

---

Black & white photos,  
textured metals,  
plants, seaform  
textured ceramics.  
a comfy new sofa and  
chair topped off the  
project.
