[Verse 1]

Yeah, Yo, yo, look Yeah  
We know Ashley Babbitt was a victim  
I'm screaming USA, free the real Jan  
Sixers  
She's a patriot who was let down by  
the system  
I'm screaming for the fallen so  
nobody will forget them  
Air Force veteran, wrapped in a  
Trump flag  
It's Trump '24, you know we about to  
run it back  
Nothing will stop us, we about to get  
it right  
They can try and try, but the storm is  
here from dark to light

[Chorus]

[Verse 2]

Yeah, shout out Mickey  
We could never feel your pain

But just know your daughter's life  
won't be taken in vain  
Shout out Sarah Maccabee  
Yeah, I'm sending you strength  
I hope they let your husband out of  
that prison today  
Ashli served in Afghanistan  
She served in Iraq  
And she died for her country from a  
senseless attack  
Yeah, we waiting for justice cause  
Ashley was innocent  
Mainstream won't cover it, they all  
just too ignorant  
If a white girl shot a black man, they  
would say that's different  
But the story didn't fit the agenda  
they pitching
