

Ashli Babbitt by Forgiato Blow

[Chorus]

Trump Train in the swamp
America that's why we love him
We the people got his back you know
we stand for something
I was at the Capitol witness hating
they ass
Busted on the battlegrounds they
won't catch me inside
Posting with them patriots they had
tears in they eyes
They still our pride boy yeah you
know we outside
They could never take our freedom
real patriots ride

They could never take our freedom
real Americans ride
I done seen those barricades open
and people jump in
I done see the media police walk
around it
They gon try to lock us down you
know we popping out
1776 you know boy we rocking out
People judging people this is crazy
these days
They been shooting they been rioting
for hundreds of days
Patriots we fed up we know that we
got set up
Who made that phone call who got
the patriot wet up
Ashli Babbitt you know we hold you
in prayer

Ashli Babbitt yeah you know your
soul's in the air
Ashli Babbitt yeah you know true
patriots care
Left your blood up on the
battlegrounds life isn't fair
Oh at least we making history
Never forget what they did to me
Boy you know I bounce back on them
I won't even say names
They try to bear me out ha I make a
new page

[Chorus]

Let's start a Patriot party
Yeah let's start a Patriot party
RIP that anybody who lost their life at
the Capitol man January 6 on both
sides
I saw with my own eyes my feet were
out there
I was on the battlegrounds
I was not on the Capitol though
Never went up in the Capitol
I was just out there seeing it firsthand
I put a lot of time in for Trump
We put a lot of time in for Trump
Truck rallies boat rallies patriots
stand up
We'll start a Patriot party
Ashli Babbitt RIP you
God bless you God bless your family
man
Make Trump president again
Stand up
