

I Got a Lover Named Liberty

I got a lover named Liberty
She's always telling me I gotta be free
I'm never gonna put any chains on me
She's the kind of lover that you just don't leave

If I'm gonna keep her I gotta treat her right
To care for Liberty, you know you better get up and fight
The enemies of Liberty are always drawing near
Defend Liberty before she disappears

I got a lover named Liberty
We fit together so naturally
A gift from God given to me
She is one divine beauty

If I'm gonna keep her I gotta treat her right
To care for Liberty, you know you better get up and fight
The enemies of Liberty are always drawing near
Defend Liberty before she disappears

SOLO

I got a lover named Liberty
Before I was born, she was lovin' on me
Always teaching humanity
Without Liberty it's all slavery!

If I'm gonna keep her I gotta treat her right
To care for Liberty, you know you better get up and fight
The enemies of Liberty are always drawing near
Defend Liberty before she disappears
Protect Liberty before she disappears
Defend Liberty before she disappears!
