

TRUMP WON

[Chorus]

Trump won and you know it
Trump won and you know it
The fake news will never show it, cause it's
true
Trump won and you know it

[Verse]

We got dead people voting
Drop boxes and Dominion
And facts are facts
It's not just my opinion
Now Democrats know how to steal
C'mon man, here's the deal

[Chorus]

Trump won and you know it
Trump won and you know it
The fake news will never show it, cause it's
true
Trump won and you know it

[Verse]

While Biden's hiding in the basement
Babbling away on zoom
Patriots fill stadiums
Not circles in an empty room
Twitter and the FBI
One day won't deny

[Chorus]

Trump won and you know it
Trump won and you know it
The fake news will never show it, cause it's
true
Trump won and you know it

[Guitar Solo]

[Bridge 1]

The thing about truth
Time is always gonna tell
I bet he took New York
And carried California as well
He's done it twice before
And he's gonna win again for the third time
In 2024...

[Bridge 2]

Trump won and you know it
Trump won and you know it
Fox News won't even show it, it's true

[Chorus]

Trump won and you know it
Trump won and you know it
If there's a line they're gonna tow it, it's
true
Trump won and you know it

[Outro]

I know it, you know it,
We know it, they know it
Everybody knows Trump won
I know it, you know it,
We know it, they know it
Everybody knows Trump won
I know it, you know it,
We know it, they know it
Everybody knows Trump won

Original Song by Natasha Owens
