

The Sacred House of Eden

Our Beliefs

We come from a divine, benevolent Source.

We are connected to our Source.

We are connected to one other.

We are the caretakers of Mother Earth.

We work with our sacraments in a sacred communion with Mother Earth and Source.

We work in partnership with our sacraments to connect us with our highest and best self.

We hold the answers within.

We live our truest life when we are being the fullest expression of who we really are.

We have the freedom to create and choose our own Path.

We have a responsibility to be self-full.

We best serve others when we take care of ourselves.

We are meant to be happy and to enjoy our life.

It is our birthright to love and to be loved.
