

LETTER OF INTENT

Date: 01/02/2023

To:
Neeraj Nagaraj,
Design Engineer,
Bangalore.

From:
Bopanna. I. R.
Director,
Jagruth Tech Pvt Ltd,
Mysore.

Dear Neeraj,

We at Jagruth Tech Pvt Ltd, a plastic recycling unit manufacturer, were impressed by your design of a compact and mobile plastic pre-recycling device. We think that this device has the potential to make a significant impact in the recycling industry, and we would like to express our interest in manufacturing it. In addition to manufacturing the machine, we would also like to collect the final plastic bricks, output from the machine.

Being in the industry for several years with a highly experienced team of engineers and technicians, we think we can bring your design to life. We also have a dedicated team to process the recycled plastic to further upcycle the same.

We believe that this machinery will be a valuable asset to any recycling operation looking to increase efficiency and reduce costs. Based on our preliminary review of the information and the design provided, we would like to express our interest for adopting the design of the Plastic Pre Recycler and work with you to bring this innovative machine to the market.

Sincerely,

Bopanna. I. R.
