Food Security

The next revolution in agriculture will
be driven by technology

FAO, 2008

“We will need as much food in the next 50 years as has been consumed over our entire human history.”

~ M. Clark, CSIRO, 2009

Food Security

“Food security exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life.”
