

\* MOST BABIES BORN IN 1900 DID NOT LIVE PAST AGE OF 50.

\* EARLY 1940'S PENICILLIAN DEVELOPED, MASS PRODUCED, AND DISTRIBUTED DURING WWII SAVING LIVES

\* IN THE LATE 1960'S & EARLY 1970'S THE "MMR". (measles, mumps, rubella) vaccine was introduced.

→ EVERYTHING IS ALWAYS MULTI-FACTORIAL AS TO THE EXPLANATION OF "WHY" SOMETHING IS. BUT THANKS TO THE ADVANCEMENTS IN MODERN MEDICINE & MODERN AGRICULTURAL PRODUCTION, WE ARE LIVING LONGER HEALTHIER LIVES.

→ WE WILL CONTINUE TO MEET NUTRITIONAL DEMANDS OF THE GROWING WORLD POPULATION THROUGH IMPROVEMENTS IN TECHNOLOGY & PRODUCTION EFFICIENCIES! (EVERYDAY THERE IS LESS LAND & MORE PEOPLE)

THAT IS SUSTAINABILITY!

Because the news should be objective, clear,  
and data-driven.
