S866/1
The HYTEK ALPHA pump range now includes an ATEX approved pump for pumping petrol.

The ALPHA heavy duty fuel pump has a modern robust stainless steel cabinet. Available in two versions, economy & standard speed. All models are fully electronic so there are no levers, switches or knobs to worry about!

**Pumping Speed:** Choose 50L/min version for filling cars & vans, 70L/min for filling small trucks.

**Accuracy:** Accurate to +/- 0.25%.

**Display:** Single sided electronic display shows up to 99,999.9 litres, the electronic totaliser keeps an ongoing total of fuel used up to 99,999,999 litres. Dual sided display optional.

**Nozzle Operated:** No switches, levers or handles to operate or break. Simply remove the nozzle & the pump starts, replace & the pump stops. Next time you remove the nozzle the display resets. *(Nozzles not included, choose the make you prefer).*

**Key/Card System Interface:** All versions can easily be interfaced with most existing or new key/card fuel management systems as a 10:1/100:1 pulse transmitter is fitted as standard.

**Cabinet:** Modern robust cabinet, completely stainless steel to prevent corrosion. Individual parts can be replaced in the unfortunate event of accident damage.

**Easy to Maintain:** Good access for service engineers allows for easy & quick maintenance. *(Speak to your distributor for maintenance schedule/contract)*

**Supplied With:** Outlet hose, suction inlet flexible connector & base drip tray.

**Compatibility:** Use to dispense petrol or diesel.

**Options:** Automatic shut off nozzles, breakaway couplings & hose retractors. Ask for full list.

**FOR USE ON BELOW OR ABOVE GROUND STORAGE TANKS.**
