# INSIGHT

# EDUCATION

At our Insight Education Program, we welcome students at any point in their educational journey. We take pride in our unique dedication to nurturing students with neurodiversity from Kindergarten to Grade 12. Our commitment to maintaining low teacher-to-student ratios ensures that each child receives individualized attention, tailored to their specific needs

## 1 ELEMENTARY

Our Elementary Program is thoughtfully designed to provide a strong foundation for young minds as they embark on their academic journey. We focus on nurturing essential behavior skills, empowering students to excel in their academic pursuits with newfound efficiency. We deeply understand each student's unique needs and potential, placing a strong emphasis on their behavior goals to instill confidence in navigating academic challenges. With unwavering dedication, we create a supportive and stimulating environment, guiding students towards success and self-discovery. Join us in this enriching educational journey, setting your child up for a lifetime of achievement.

## 2 INTERMEDIATE

In our Intermediate Program, we prioritize students' social-emotional goals while offering BC Ministry of Education-based curriculum. Our approach encourages a genuine joy for learning, fostering growth in a supportive and encouraging environment. Join us in creating lifelong learners prepared to navigate life's challenges with confidence and compassion.

## 3 MIDDLE

In our Middle School program, students receive personalized instruction in math, science, language arts, social studies, the arts, and physical education. Instruction is delivered individually and in small to ensure effective support.

## 4 SECONDARY

Our Secondary School program adheres to the BC Ministry of Education's graduation requirements, equipping students for diverse post-secondary opportunities. Whether pursuing a full high school diploma or an adult graduation certificate, we prepare them for success. Students can explore a wide array of pathways, attending core classes while delving into fascinating areas like coding, cooking, physical education, and technology, among others. We foster an enriching environment that nurtures their interests and ambitions.

## 5 GRADUATION
