

BigfootLoot Coin (BGF) Whitepaper

Version 1.0 – September 2025

Abstract

BigfootLoot Coin (BGF) is a decentralized, community-driven meme cryptocurrency inspired by the legendary creature himself. While most meme coins exist only as jokes, BGF combines humor, viral culture, and community engagement with sustainable tokenomics and utility. Our mission is simple: build a digital ecosystem where legends, laughter, and loot collide.

1. Introduction

Since the dawn of crypto, meme coins have shown the power of community, virality, and culture over pure financial theory. From Dogecoin to Shiba Inu, meme-driven tokens have disrupted markets and captured mainstream attention. BigfootLoot Coin (BGF) steps into this space with its own mythos. Bigfoot has always been elusive, larger-than-life, and a symbol of mystery. Now, he's dropping digital loot across the blockchain. With a deflationary model, gamified rewards, and community-first governance, BGF blends meme coin energy with a roadmap toward lasting value.

2. Vision & Mission

Vision: To create the ultimate legendary meme coin that bridges fun, culture, and community wealth-building.

Mission: Empower a global community through humor, decentralization, and shared rewards while spreading the legend of Bigfoot into Web3.

3. Tokenomics

Total Supply: 1,000,000,000 BGF

Initial Circulating Supply: 95% (950,000,000 BGF)

Treasury, Marketing & Development Fund: 5% (50,000,000 BGF)

Liquidity Pool: Community-driven and supported at launch via circulating supply

4. Utility

- **Loot Drops:** Random community airdrops to wallets, mimicking 'Bigfoot leaving loot in the forest.'
- **Staking:** Earn more BGF by staking and supporting network stability.
- **NFT Integration:** Collect limited-edition Bigfoot Loot NFTs tied to lore-based events.

- Merch Store: BGF accepted for exclusive BigfootLoot merchandise.
- Community Governance: Token holders vote on proposals, campaigns, and charity causes.

5. Roadmap

Phase 1: Launch (Q4 2025)

- Smart contract deployment
- Initial airdrops ('Bigfoot Sightings')
- Website + Whitepaper release
- Listings on decentralized exchanges

Phase 2: Growth (Q1–Q2 2026)

- NFT Loot Collection launch
- Partnerships with meme communities
- Marketing push & influencer collaborations

Phase 3: Expansion (Q3–Q4 2026)

- Merch store launch
- Cross-chain integration
- BigfootLoot mobile app for gamified rewards
- Centralized exchange listings

Phase 4: Long-Term (2027+)

- Bigfoot hunting game with BGF rewards
- Global community events & meetups

6. Security

Liquidity pool supported by circulating supply and community-driven growth. Smart contracts will be audited by third-party security firms, and anti-whale measures will be implemented to prevent manipulation.

7. Community

The heart of BGF is its community. Holders aren't just investors — they're trackers, hunters, and storytellers in the Bigfoot legend. Engagement is rewarded through loot drops, memes,

and governance participation.

8. Disclaimers

BigfootLoot Coin is a community-driven meme token and should not be considered an investment with guaranteed returns. Cryptocurrency markets are volatile, and participants should always do their own research.

Conclusion

Bigfoot may be hard to find, but BigfootLoot Coin is here to stay. By blending culture, mystery, and crypto utility, BGF aims to become the legendary meme coin of Web3. Join the hunt, collect the loot, and be part of the legend.
