MISSION, VISION AND VALUES

Our Core Values

While many health supplement companies have come and gone over the past few decades, Nature's Sunshine has stood the test of time. Why? We believe it's a result of our undying devotion to our core values. Nature's Sunshine was founded on quality, service and integrity, with a commitment to continuing innovation and providing a community for those interested in sharing wellness and transforming lives.

OUR MISSION

To transform lives around the world by providing the most innovative and highest quality health solutions.

OUR VISION

To become the world's premier health, wellness and lifestyle company.

QUALITY IS IN OUR ROOTS

Nature's Sunshine's dedication to the highest quality standards could be termed obsessive, but we wouldn't have it any other way. Our Quality Assurance and R&D departments include Ph.D. chemists, biologists, pharmacognosists, medical doctors, health science researchers and more. We spend millions of dollars annually on personnel, advanced equipment and lab materials. Our uncompromising devotion to quality means that we don't just meet the standards, we set the standards for others to follow.

FORMULATING FOR EFFICACY

Efficacy, along with purity and safety, drives the development of every Nature's Sunshine product. Using an exhaustive scientific methodology, Nature's Sunshine scientists seek to understand the molecular mechanisms of specific body functions. With that understanding, they investigate ingredients known to affect these mechanisms and search for the most impactful blends of these ingredients. The most promising formulations undergo clinical studies to demonstrate their effectiveness.

SELF-MANUFACTURING EXCELLENCE

The vast majority of US health supplement companies use third-party manufacturers for all of their products, but that's not good enough for Nature's Sunshine. As a leading manufacturer of nutritional supplements, we proudly produce our products on-site in a 265,000 square-foot facility in order to maintain control of product quality at every step in the process.

- We source the finest ingredients and verify their quality.
- We use the appropriate testing equipment and validated testing methods.
- We properly store raw materials and finished products.
- We validate the cleanliness of our manufacturing equipment.
- We employ our own mechanics and engineers to maintain our equipment.

Controlling every manufacturing aspect is crucial to consistently providing pure, potent natural products that deliver proven, predictable and repeatable results.

NSF International has annually presented Nature's Sunshine with its Good Manufacturing Certification, which assures product and ingredient safety, along with peace of mind through GMP compliance.

Australian Government
Department of Health
Therapeutic Goods Administrations

Therapeutic Goods Administration (TGA), Australia's equivalent of the US FDA, is considered by many to be the industry's most stringent regulatory body, basing their certification on a rigorous evaluation process.

ESSENTIAL OILS

Nature's Sunshine's proprietary SureSource Guarantee gives our authentic essential oil lovers a completely new level of quality confidence. SureSource Guarantee ensures authenticity through the complete product lifecycle and produces several critical “signature” documents as tangible proof.

For ease of use, we categorize our Authentic Oils into Scent Families. They include:

INTRODUCING

PURIFY 2.0

A Revolutionary Heavy Metal Detox Program

Purify 2.0 is a patent-pending, four-week program that uses four scientifically formulated products to eliminate toxins, purify the gut and restore microbial balance.

NEW
1 Rejuvenaid (Stock No. 22215)

- Increases nitric oxide levels.
- Improves energy production, physical stamina and brain circulation.
- Supports healthy blood pressure and optimal blood flow.

NEW
2 UltraBiomeDTX (Stock No. 22202)

- Eliminates heavy metals from the body.
- Helps purify and rebalance the gut, promoting healthy bacterial balance.
- Helps keep waste and toxins out of the bloodstream by strengthening and tightening cellular junctions.

3 Bacillus Coagulans (Stock No. 6109)

- Nourishes and strengthens the gut microbiome with friendly bacteria.
- Supports gastrointestinal health.

4 Nature's Harvest (Stock No. 3090)

(or Nature's Sunshine protein of choice)

- 13g of protein which helps build and repair muscle tissues.
- Source of vitamins and minerals, antioxidants, essential fatty acids to support biological functions, which play a key role in the maintenance of good health and a factor in normal growth and development, energy metabolism, tissue formation and to maintain cognitive function.

TRADITIONAL CHINESE MEDICINE (TCM) ACHIEVE BALANCE

Used for centuries in China (and today) by herbal practitioners, Traditional Chinese Medicine (TCM) features a blend of natural herbs and botanicals that work synergistically by addressing Fire, Earth, Metal, Water and Wood—the five elements of Traditional Chinese Medicine. TCM philosophies attempt to bring your five elements into harmony, helping you feel a general sense of overall well-being, balance and restored vitality and energy.

Concerning the heart and mind, Fire controls emotional states, mood and the circulation of the blood.
