# Preparing Workplaces during COVID-19 Outbreak

## Excerpts from CDC Guidelines

- Educate employees about how they can reduce the spread of COVID-19
- Wash your hands often with soap and water for at least 20 seconds. Use hand sanitizer if soap and water are not available
- Clean AND disinfect frequently touched objects and surfaces such as workstations, keyboards, telephones, handrails, and doorknobs. Dirty surfaces can be cleaned with soap and water prior to disinfection.
- Support respiratory etiquette and hand hygiene for employees, customers, and worksite visitors
- Place hand sanitizers in multiple locations to encourage hand hygiene

# Product Statements

**FREEDOM**  
**X** SANITIZER

- Aphex BioCleanse Systems® products are based on technology and are designed to effectively kill 99.99% of germs without the side effects of alcohol. Powered by nature's chemistry, they effectively kill germs even after drying. The family of products includes HydrAphex™, perfected to kill germs without the effects of alcohol, leaving skin smooth and fresh. SanAphex®, a surface disinfectant that will not bleach or discolor surfaces. MedAphex®, an innovative sting-free wound wash. VetAphex®, for the protection and treatment of animals and livestock.
- All products leverage the ionically charged Aphex® proprietary water-based delivery formula. Aphex® products are safe, effective, gentle on skin and surfaces, and contain no artificial colors or fragrances.

# Manufacturer Information

## Company Reach

- Headquartered in Rochester New York and with a manufacturing facility in Holiday, Florida, Aphex™ BioCleanse Systems is positioned to service our US and Canadian customers quickly and efficiently. Our European partners “Aphex Europe” sell our American made products in that part of the world, giving us an international presence.

## Company Experience

- Aphex™ has built a strong foundation based on our patent pending, cutting edge formulation promoting skin health, and that’s something that alcohol based products can’t claim that kills germs without the use of alcohol. Alcohol is harmful to the skin, can be toxic if ingested, and is extremely flammable. Years of Research & Development are responsible for all of the products in our product line, which share the same base formulation. We kill dangerous germs while

## Company Mission

- Our mission is to save lives, ease the burden of illness, increase workforce productivity, and in general, make the world a healthier and safer place, by providing the most effective and safest sanitizing solutions available.
- We are dedicated to making every one of our products in the United States of America and making sure that those products are truly environmentally friendly. We are committed to making Aphex™ BioCleanse Systems the new benchmark in effective green technologies.

# Independent Lab Test Data

## Aphex™ Independent Lab Test Data

- Killing germs is a serious business. At Aphex™ BioCleanse Systems, we back our products with independent lab testing. Our products are tested continually in order to assure the high-quality results our customers expect and deserve. At Aphex™ we develop complete protective systems for many industries, and each of our products is put through a rigorous series of tests to maintain our high standards.
