Medication Assistance

Bartz-Altadonna Community Health Center works with several patient assistance programs, sponsored by various pharmaceutical companies who help eligible patients obtain free or low cost medications such as; AIDS Drug Assistance Program (ADAP), 340B prescription Program, and Patient Assistance Program. (PAP).

On-site certified enrollment specialists ready to assist clients obtain health coverage benefits and or low cost primary care services.

About Us

Bartz-Altadonna Community Health Center provides comprehensive primary medical care for all ages, mental health care and women's health care for low-income, uninsured, underinsured and homeless persons. We accept most insurance plans and participate in:

- My Health L.A.
- Fam Pact
- Child Health and Disability Prevention Program
- Vaccines For Children
- Every Woman Counts
- Veterans Choice
- L.A. Care
- Community Family Care
- Hispanic Physician IPA.
- High Desert Medical Group
- Veterans Evaluation Services
- and many more.

We provide compassionate state-of-the-art specialty medical care and supportive services for HIV and Hepatitis C.

Our Mission

The mission of Bartz-Altadonna Community Health Center is to provide, patient-centered, high-quality, trauma-informed health and wellness care services to residents of the Antelope Valley regardless of ability to pay.

“Healing the whole person; caring for the whole community”

Project Enliven Initiative

Here at Bartz-Altadonna Community Health Center we are committed to Quality. Our Project Enliven Initiative promotes quality at every level of our organization.

Consistent with this mission, BACHC has set to following goals in providing patient care that is:

- **Safe**-Providing evidence based treatment using effective practices, thus avoiding harm to patients as a result of the care that is provided.
- **Patient Centered**-providing care that is respectful of, and responsive to; individual patient preferences, needs, and values while ensuring that patient values guide all clinical decisions.
- **Timely**-Reducing waiting times for accessing care, as well as potentially harmful delays.
- **Efficient**-Avoid waste, whether it involves financial, material, or human resources.
- **Equitable**- providing care that is standard in quality and access that does not vary based upon any personal characteristics or biases.

Therapy and Mental Health Services

Our Behavioral Health Department Provides Mental Health Services for Adults Recovering from Childhood Abuse and Other Life Traumas

The Behavioral Health department is a welcoming environment, safe and comforting place where each client is valued and respected. Clients are assisted in developing life-enhancing goals utilizing motivational interviewing and solution-focused strategies, and treatment is designed to reduce or eliminate barriers from that past and strengthen access to resources for the future.

We are an AIMS grant recipient (Increases Access to Mental Health and Substance Abuse Services)

The purpose of this grant is to expand access to mental health services, and substance abuse services focusing on the treatment, prevention, and awareness of opioid abuse; while integrating it with primary care.

For this we now have a Psychiatrist on staff.

Homeless Outreach

Our outreach team works tirelessly helping the homeless. We participate in meals, water, and clothing delivery events, and provide much needed resources for the homeless population of the Antelope Valley.

We also collaborate with other agencies to provide care using a mobile clinic, taking healthcare where it is needed most.

Need Medical Care?

Are you Un-insured or Under-insured and /or homeless?

We provide comprehensive medical and mental health care to all residents of the A.V. low-income uninsured and underinsured residents. Many may qualify for low or no cost care. No one will be turned away for inability to pay.

Patient Portal (MyChart)

We offer our patients easy and private access to their health history online through our Patient Portal. Patients can view and download their personal health records through a computer or smart phone using the Healow App.

Core Values
