### **Some of ABATE of Florida, Inc.'s Accomplishments**

- On July 1, 2000, we had the 30 year old Florida Helmet law repealed; July 1, 2020 was our 20th Anniversary of Freedom of Choice.
- We've become the 4th largest State Motorcycle Rights Organization (MRO) in the country (IN & IL are 1&2, we regularly switch for 3rd & 4th with PA).
- We got the handlebar heights law modified.
- We successfully fought a bill that would forbid our children from riding on our bikes.
- We successfully fought the bill that would confiscate motorcycles for going 30MPH over the speed limit.
- We developed an effective MSAP program that has raised motorist's perceptions and awareness of motorcycles, and have received funding from the State of FL totaling over \$750,000 to promote motorcycle safety and awareness.
- We successfully fought the bill against vertical tags that had over \$1,100 in fines for a first offense.
- Supported and fought for a texting-while-driving ban for the last few years.
- Our 2009-2010 Stiffer Penalties Bill made it through five of the FL House & Senate's committees; this is the farthest it has gone in the number of years we have tried. On the last day of session, a committee member strenuously attempted to attach a revival of the helmet law to our Bill. To avoid a new helmet law in Florida, we had to kill the Bill.
- We publish monthly Press Releases and/or Articles of Interest in many online & print publications, including Florida Full Throttle.
- The President of ABATE of Florida, Inc. has been asked to be on and currently sits as a member of The Motorcyclist Advisory Council (MAC) to the Federal Highway Administration in Washington, D.C. The Secretary of the U.S. Dept. of Transportation may appoint a representative from only two State MROs throughout the entire U.S.A. to be on this council.
- The President of ABATE of Florida, Inc. sits as the Chairman of the Board of Directors of the National Collation of Motorcyclists (NCOM). NCOM has over 1000 member organizations.

**"THIS PAGE SPONSORED BY FRANK T. (GBNF) & LISA"  
PRESIDENT'S ARTICLE**

*I would like to thank everyone in our Chapter who helped me make this the greatest Chapter, for the last 7 years as President. You guys did a really great job for our Chapter. We finally grew the Chapter back up to over 700 members, which has been a goal of mine, and we hit it a few times in these 7 years. But the years along the way were so amazing, from the first day, and some of the ones who worked the hardest, have moved north to other parts of Florida, like Marie, I really miss our conversations, and she's still with ABATE, just another chapter. And Troy, who was my VP for a while, and our Road Captain, who moved to Oklahoma. And a lot of others, but the one I miss the most, save the best for last, is Wavy. He worked beside me, also as VP and Road Captain, and Safety Director. He never got tired, and always made me laugh.*

*And thanks to a lot of those who worked so hard at the beginning, in 2018, and are still here, active in our Chapter, special shout out to Teddy Bear, Nighthawk, Little Bit, Wildcat, Poppie, Fern, Sandy, Bob Anz, Boatman, Rogue, Russ, Paulie, and Ada, and our two favorite attorneys, Brad Winston and Gabe Carrera, and of course, my wife, Sheila. Thanks for your hard work in the past and continuing through today. I hope I didn't forget anyone who was there in the early days of 2018.*

*While I'm at it, I would also like to thank everyone in the Chapter who helped me when I was President in 2011, especially Old Hippy, also in 2018. He basically had to step up to do my job halfway through my term. Because I was sick with diverticulitis, which kicked my butt.*

*When you have really good people behind you and beside you, you can't help but have success.*

*Speaking of success, we were able to get our Safety Money back and the Governor just signed our Vulnerable Road User's bill into law. How cool is that you know?*

*This is my last article as President. I am not going away, just stepping down, hopefully to Vice President. We never know until the final elections in June, but I am running unopposed. I am excited to work with our new president. That brother of mine has already been doing a great job, very active, lots of new and exciting ideas, also running unopposed, but nothing is final until the June vote.*

*I am excited to show him all that I know, introduce him to all of my brothers in the community, the SFPC, the MFPC, heck, he already knows most of them. And luckily, he has the same good people behind him that I did. But you know, the "buck stops here" at the president. He's gonna do great things!!*

*I have been a member of ABATE since 1998 and I still haven't figured out how I went from bass player in the Three-Legged Dog Band playing ABATE parties to the President of the Chapter, twice! I'm sure glad I did, and I was inspired by many of the presidents that came before me. They were the ones that gave me the passion to fight for our rights and to try and make it safer to do what we all love to do, ride our motorcycles.*

*So, I will end my last President's article by thanking everyone in the Chapter, those still here, and those who are not. Thank you for having faith in me for all these years. It has been an honor to be*

*your President and a pleasure to be your brother.*

*Please support all your American Legions and VFWs. God Bless America, the military, and the veterans who have helped keep this Country free.*

*And to the younger people out there, you have the chance to inherit an organization that stands up and fights for biker rights and safety. Help us make a difference, now, and for the future!*

## **ANYONE WHO RIDES SHOULD BE A MEMBER OF ABATE!!!!**

*God bless America!!!!*

*Peace,  
Johnny Rose  
President  
Southeast Chapter*

*Vice* PRESIDENT

*Bittersweet Goodbye*

*ABATE of Florida, Inc. has a core mission that I consider a noble cause, that being the protection of bikers and their rights in the state of Florida. This last year our organization has made significant strides regarding motorcycle safety funding and increasing penalties for those that do harm to our brothers and sisters on two or three wheels. These results are the culmination of massive efforts conducted over many years. Our organization was not deterred despite road blocks to pass these legislative initiatives. I'm not sure whether the stars aligned or what but Abate of Florida, Inc. got it done this last year and I for one am proud of that.*

*While these achievements are noteworthy, the job is not done. We still have not gotten legislation outlawing profiling, and at the federal level we are keenly watching the efforts to make it difficult if not impossible to repair motorcycles with internal combustion engines in the future. These are just a small sample of what Abate is addressing for all bikers in the State of Florida. I believe it is time for new blood to come in to Abate of Florida Southeast chapter with fresh ideas to help promote the interests of bikers everywhere in our state.*

*As my tenure as Vice-President comes to a close, let me say that it was truly an honor and a privilege to be one of the small cogs in the organization that is Abate. I appreciate the support and help from all the members of Abate whose continued support made the achievements this last year possible. Please continue that support in the form of your annual membership renewal, which not only funds the publication of this newsletter, but also helps you the rider be heard so that our rights and freedoms continue into the future. In my humble opinion it is the best twenty bucks a year you can spend if you ride. Heck that's hardly a bar tab.*

*PLEASE BE SAFE OUT THERE...*

*Again.... as always Rubber Side Down  
Martin (Hunter) , Vice President  
ABATE of Florida, Inc.  
Southeast Chapter*

**GOOD OF THE ORDER:**

A giant Memorial Day card was also available to sign for all the veterans residing at the Sandy Nininger Home for Veterans.

Brad Winston commented on an aspect of the membership benefit. He has been getting calls to schedule an appointment from the insurance company that provides our \$4,000 benefit. He tells us that this is not a sales call and encourages members to take the call. The rep will review benefits available to you as a member of ABATE. This is a service provided to all union members, which is how they classify ABATE. For example, they can provide you with a free will, a free prescription benefits card, which could save an additional \$2,000. So if you have been avoiding the call, consider taking it, it's all good stuff, the benefits you already have, but might not know about. It is not a sales call.

Motion to adjourn at 1130 am, seconded, approved. Next meeting will be held at American Legion Post 142 at 10:00am on June 23, 2024.

**HELP  
WANTED!!!!**

This is a call for help !!!! Your SE Chapter of ABATE has recently been hit with some significant setbacks. Aside from our trailer with all of our safety supplies, tables, tents and merchandise being stolen, in the past year the chapter has lost many of our leadership positions, from Vice President, Safety Director, a Photographer, and two Sgt.-at-Arms, just to name a few. And while these positions have been filled by other ACTIVE members, the number of active members has decreased to just a small handful. With a chapter membership around 680 (largest in the state), this is a call out for our members to step up, attend a monthly meeting (Usually the 3rd Sunday of every month, details are on the back page of this newsletter) and become an ACTIVE member in your local Southeast Chapter of ABATE. We need active members that are willing to lend a hand so that we may continue to do what we do effectively. AMERICAN BIKERS AIMING TOWARD EDUCATION. Look forward to seeing some new faces at our monthly meetings and events.

# THE BEST TOOL IN THE BAG

*When it comes to motorcycle riding, being prepared for emergencies is key. There's nothing worse than going for a ride that ends short of the destination. Besides being embarrassing, it's no fun on the side of the road. Some of the best advice I received in my motorcycle endorsement class was to make sure I carried a few tools and extra parts in my tool kit.*

*A small tool kit should do for most basic emergencies. Here are a few items to include:*

- Combination Wrenches
- Allen Set
- 6" Adjustable Wrench
- 3/8 Drive Ratchet Set
- 3/8 Drive Spark Plug Socket
- Pliers
- Screwdriver
- Needle Nose Pliers
- Rag
- Electrical Wire
- Tire Gauge
- Electrical Tape
- Fuse Kit
- Cable Ties

*Remember, this list is not exhaustive. You can add to it, including items specific to your bike. The idea is to get up and running as soon as possible. While having these things can help us out of a jam, consider a spiritual tool kit as crucial as the items listed above.*

*As believers, we have practical tools we can use to get help when we need it. Here are five tools to keep our faith strong, even in times of crisis. Whether the*

*crisis is global or individual, these items will help us get through the storm with our faith intact. Remember, our faith is a powerful tool that can guide us through even the darkest times.*

*•Pray - faith doesn't rely on the people and circumstances around us but on the God who is above it all. Prayer is one of the most powerful resources we have.*

*•Read—When everything around us seems overwhelming, grab the Bible and get immersed in God's word, especially the readings that bring hope.*

*•Talk - talking to someone who can give spiritual guidance can help to sort things out.*

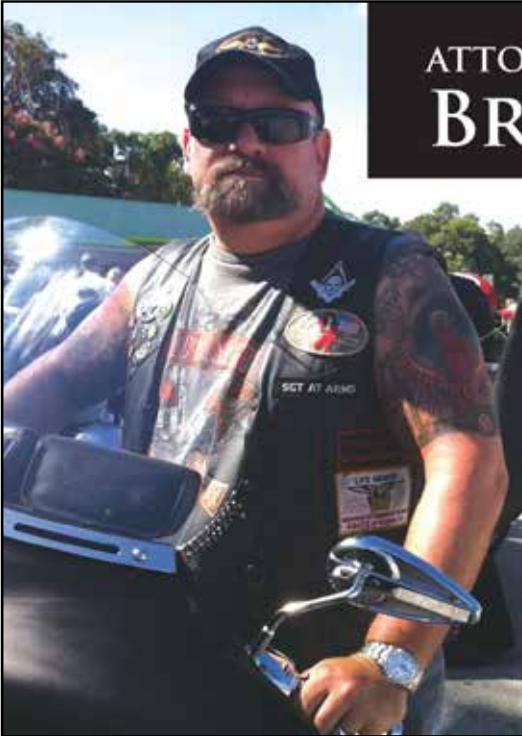

*•Meditate - close out the world and everything that calls our name. Be still before Him.*

*•Ride - wind on the face will help clear the heart and mind of unnecessary clutter*

*Resting in the Lord seems nearly impossible when in a crisis. That's why being spiritually prepared is as vital as having a tool kit for the road. Just as a mechanical breakdown can kick us to the curb, a spiritual crisis can quickly lay us on our sides. But Jesus knows how to pick us up after we've been laid down. He's the best tool in the bag!*

## ABATE SOUTHEAST CHAPTER SPONSORSHIP PROGRAM

we are bringing back our old Sponsorship Program. This was an idea to help raise money for our Chapter, and also to recognize those brothers and sisters who provide extra monetary support, to promote the Chapter's mission. Members, or other individuals, who provide a donation to the Chapter, will have name recognition in our Monthly Newsletter and on the Chapter's website, for one year. The categories are: Platinum Donor \$125+; Diamond Donor \$100-\$124, Gold Donor \$75-\$99, Silver Donor \$50-\$74, and Bronze Donor \$25-\$49.

Approximately 40% of our members are Life Members, which means they do not pay annual dues, so they do not financially support the Chapter through dues. They do buy products, pay to attend events, post ads in our Newsletter, and make monetary donations, but they have no obligation to do so. This is another opportunity for them to contribute, if they wish, but anyone can do this.

This is an opportunity for all Southeast Chapter brothers and sister to become ABATE Southeast Chapter Sponsors. Platinum Donors also get to select a page in our Newsletter, to sponsor, where you name will be listed in a banner at the top of the chosen page, and first come, first serve.

I want to sponsor ABATE Southeast Chapter with the following donation (not tax-deductible). Check one:

# "THIS PAGE IS SPONSERED BY DOUG SPENCER" JOHNNY'S RANT

So, I'm riding down the road the other day and I see this independent rider. going down the Turnpike in a tank top, shorts, and flip-flops at 75-80 miles an hour. It just makes me wonder if he knows what happens to the body once it slams into the pavement. That is just so much skin, hitting the pavement, scrapping off, getting road rash, cuts, bruises, to say the least. And come on man, flip flops, really. Sooner or later he's gonna have to put his foot down, and he better hope he's not moving when he does, or that his foot doesn't slip out of those flip flops, and his unprotected feet hit the pavement and he has a gnarly and bloody injury. I want that rider to ride another day in peace. Just sayin' you know.

But I do gotta say that ABATE, clubs, and riding groups know about safety and wear jeans, boots, and shirts that cover much of the skin, to be safe. Dress for the slide, not the ride.

The other thing that drives me nuts is watching some of these riders riding down the road on their cell phone, yes, on a bike, on their cell phones, either talking or texting on the highway. They are not paying attention to the other distracted drivers around them, in cages, that could cut them off and kill them in a heartbeat.

I guess I could understand better if they were riding down a country road where there's little or no traffic and all they have to worry about is hitting a deer or a hog or hitting some sand. But even that's still crazy to do. Anyway, it ain't like that down here that's for sure. There are cagers everywhere, even on the side roads. So please play it safe and where the right gear.

God bless America, Home of the Free, because of the Brave!

Peace,  
Johnny Rose

-BY: LITTLE BIT, SHEILA, SANDY, & THUNDER  
(throw-back from July 2023)

*Because it is still relevant, and we think bears writing about again, we want to “throw-back” this article from last July. We were all sharing the different temperatures readings from our cars, 99 degree on May 18th, yikes? It is not even summer yet. And just this same weekend, mid-May, there was hail in South Florida, and crushed some of Sheila’s son’s backyard garden. They live in a condo and can plant 5 feet out, and her son uses every bit of that 5 feet, growing bananas, strawberries, tomatoes, all kinds of random herbs, and salad stuff, butterfly flowers, on and on. He is watering every plant, every morning, and again at night, because of the heat. The point of all that, is to plant trees or other plants when you can. It will help things cool off, even if just a little. Without plants, the Earth would die. Without animals, the Earth would die. Without humans, the Earth might thrive.....well, let’s try and behave better and be stewards of our Earth.*

*So here we are, before the Dog Days of Summer, so get ready for some more hot months. Throw-back article below.*

*The Dog Days of Summer last from July 3rd to August 11th, 40 days. This is historically the days (and nights) following the heliacal rising of the star system, Sirius, also known as the Dog Star. Heliacal rising means, when the star is first vis-*

*ible above the horizon, at dawn, just before sunrise, a “morning” star. When the Dog Star starts rising, in ancient astrology, going back centuries, this meant that heat, drought, sudden thunderstorms, lethargy (lack of energy and enthusiasm), fever, mad dogs, and bad luck were on the way. In Egypt, the return of the Dog Star was right before the annual flooding of the Nile, and the star was worshipped as the goddess Sopdet. Even in Homer’s Iliad, written in the 8th century BC, when Achilles was approaching Troy, where he would slay Hector, the menacing effects of the return of Sirius are noted. These days, it means that we are starting the hottest and most sultry days of the summer. So, we get it, Dogs Days are HOT days.*

*We don’t have to tell anyone that it is hot this summer. We are not complaining though. That is just how it is, how it has always been, in this beautiful part of the United States, South Florida, that we call home. It really is a paradise here, and it is all in your perspective. Us girls are all fortunate to spend our days inside, nice air-conditioned offices or homes. We have friends that do work outside, but because they are seasoned at this, they know what to do, to drink a lot of water, take breaks in the shade, etc. We do feel bad for the homeless, who maybe can’t take care to get water or shade. We know some of them can, but we sometimes see little kids out there, with their parents, or even dogs. Anyway, not to go down that path right now.*

*We also want to take this opportunity, to again, thank all the men and women who serve and served, in various desert wars, but also, in general. We take our AC for granted, but just in Desert Storm alone, there were about 697,000 troops, standing in the heat, in the desert, in full gear, and they didn’t complain, just did their duty, serving our Country, serving us, so thank you!!!*

*I know you have all heard of the Dust Bowl, which was area in the southern plains region of the United States, which had severe droughts during the 1930’s. There were high winds and choking dust that swept the region of the U.S. from Texas*

to Nebraska, killing people and livestock, and most crops failed across the region. The Dust Bowl was caused by several factors, not just the changes in weather. Some federal land policies, at the time, encouraged pioneers to go west and settle in the Great Plains, to be farmers, but for many, their inexperience led to over-farming of the land, plowing up millions of acres of native grassland to plant wheat, corn, and other crops. When the drought came, there was only bare land, with no deep-rooted prairie grasses to hold the soil in place, so it just blew away, some of it blowing as far as Washington DC and New York City, which is kind of like the Saharan dust that we get here

sometimes. By 1934, 35 million acres of farmland was useless, just bare land, and another 125 million acres, about  $\frac{3}{4}$  the size of Texas, was rapidly losing its topsoil. Fortunately, in 1939, the regular rainfall returned, and the Dust Bowl years were

over. The Great Depression was also going on during this time, so the economic impact of this long drought drove many families on a desperate migration, away from farms, in search of a better life in the cities.

Okay, enough history lessons about the heat, how does all this affect us? We think part of the rest of the country is happy for the summer, as that means they can ride almost anytime. Many have put their bikes away during the winter months and can't wait until spring and summer. To them, this is a great time to ride. Our favorite time to ride is in the fall and winter, when it's a little cool, and we can wear our leather jackets. Honestly, we were talking, and each of us have about a half dozen leather jackets, so we usually get to where each one, only once, during the fall and winter, yep, paradise.

We know most of you seasoned South Florida bikers know what to do in the heat. You need to stay hydrated. You may not notice, when you are riding, that you are sweating, and the wind is just evaporating that right off you. You should drink lots of water at each stop, maybe even some sports drinks with electrolytes, and some salty snacks. We know a few people who, when they go on long rides, keep a small collapsible cooler in their saddle bags with cold water, just in case they need to stop on the side of the road, maybe to help another biker. It is said that you should also avoid alcohol too, and ABATE does not condone drinking and riding, but sometimes a cold beer, at the end of a long ride, just tastes so good. Just try and make sure that you are done riding, then take a long pull on that beer, and then another one, for us!

Some of us actually wear long sleeve shirts in the summer. These are not your regular long-sleeves, but are these special shirts that actually keep you cooler, by wicking the sweat from your skin, which does keep you cooler, helps regulate your body temperature, AND you don't have to wear sunscreen on your arms if you get the UV

*Blocking ones. There are all different brands out there. There are also arm sleeves, if you just want to have the coverage when you ride, and pull them off when you stop, to hang out with your friends. But please, we know it's hot, don't wear shorts and flip flops. Bring them with you, for when you stop, but don't ride without at least minimal protection.*

*At every one of our spring and summer events, for the past few years, Sheila has purchased a handful of these cooling neck wraps, and put them in our water cooler, in case someone needs them. You will see Johnny, our President, often with his blue "tie" at our hot events. If you haven't tried them, you have to check it out. You just dip that wrap into a bowl of cold water, or pour water from a bottle on it, and put it around your neck to keep cool. It takes a long time, hours, for the water to go dry. Not an advertisement, but Harbor Freight always has them for \$4.99 each, but sometimes on sale.*

*When you can, try not to ride during the hottest parts of the day. Morning rides are great anytime, but especially for these next few weeks. Get up early and ride to the beach, so you can see the amazing sunrises we have here. Then ride for a few hours, take a break for lunch, meet up with some friends, maybe then catch a movie. Then later, take an evening ride, but beware of "mosquito hour", haha, which is dusk, and keep in mind that other wildlife may be more active at this time, in case you're riding out west, near the Everglades, where you may spot a deer crossing the road. Okay, we know that's rare, but happens. And you will maybe get to see God's artistic side, in one of our beautiful sunsets.*

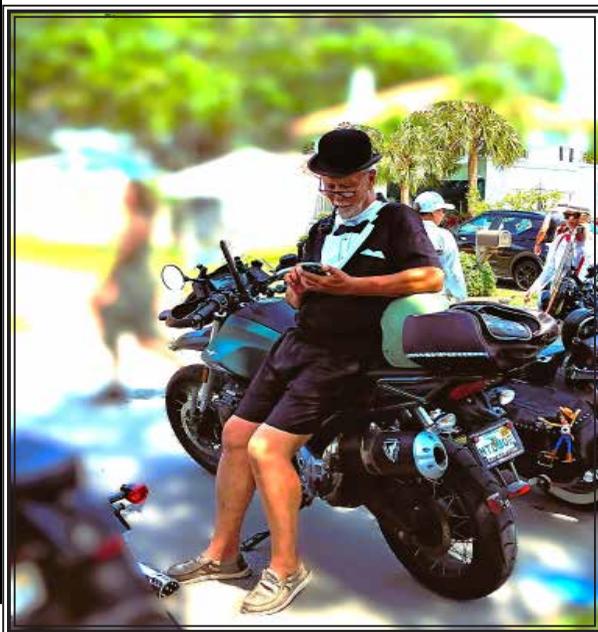

*We know most of you don't stop a ride until you need fuel. You may ride for a few hours before needing fuel but stop more often in the heat. Stop and get some water in you, take your helmet off, stretch your legs, and rest for a minute or two.*

*Finally, we are all about safety and education at*

*ABATE, so be safe!! Use common sense!! If you start to feel lightheaded or dizzy, get a headache, or cramps, or your skin starts feeling cool and clammy, your body could be over-heating. This could be Heat Exhaustion, which can rapidly turn into Heat Stroke. Heat Stroke is extremely dangerous and can be fatal. So if you start feeling any of the signs of heat exhaustion, play it safe, don't try to tough it out and ride through it. It doesn't work like that. Pull off at the next stop, or sooner if you need to, and get cool, take off your helmet, put a neck wrap on, find some AC, drink some ice water, but be safe and take care of yourself. We lose enough bikers to stupid and distracted drivers; we don't want to lose someone to the heat.*

*It's cool to stay cool!!!*

*"Risk is good. Not managing your risk is a dangerous leap." Evel Knievel*
