Acceptance of this form does not guarantee repair. Our technician will be back to you within 2 business days with a quote, or a refusal of the repair. Repairs may be refused if they would violate warranties and/or are outside of the scope of this shop. Our shop has the right to refuse any repair for any reason. If that is the case, we will recommend alternatives for you.

Once a quote is accepted, we will do our best to ensure costs do not exceed that price. Any additional costs that may occur during the course of the repair will require written or verbal confirmation from the client.
