*2025 – Company Profile*

*house Of SACH*

With over three decades of expertise in the glass industry, House of Sach began its journey specializing in only architectural exterior glass and has now evolved into a comprehensive product design and manufacturing company.

1985

Our company started out as a normal architectural glass business, but it grew to become a respected name in the whole industry. What began as a modest operation focused solely on exterior glass solutions had then evolved into a full-scale enterprise known for its innovation, craftsmanship, and quality.

Throughout the years, we have consistently adapted to industry trends, integrated advanced technologies, and expanded our capabilities to serve a wide range of architectural and design needs.

Our journey is defined by a commitment to excellence, strong client relationships, and a deep understanding of glass and its aesthetics. From high-performance façades to customized design elements, we have contributed to landmark our projects across the region.

# 2025

House of Sach was incorporated to withhold a strong legacy rooted in craftsmanship, innovation, and quality but also cater a newer audience, the interior designing audience. Earlier what was just established with a focus on architectural exterior glass, the company has steadily expanded its capabilities and vision.

Today, House of Sach operates as a full-service product design and manufacturing organization, offering comprehensive solutions that blend functionality with design excellence.

As part of our commitment to innovation and creative exploration, we have recently broadened our material portfolio to include not just glass, but also leather, wood, natural stone, and a variety of metals such as brass, aluminum, and stainless steel. This expansion allows us to cater to a wider spectrum of design possibilities and deliver sophisticated, multi-material products that reflect both modern and classic interior trends.

Understanding that every client and project is unique, we offer both standard-sized products and fully customized solutions. Our team works closely with clients to develop tailored sizes, designs, and finishes that align with their specific needs, tastes, and project requirements. This flexibility ensures that each creation is not only functional but also a true reflection of the client's vision.

At House of Sach, our mission is to build a brand that genuinely understands the evolving demands of our customers. We aim to deliver products and experiences that exceed expectations and foster long lasting relationships grounded in trust and satisfaction.

To serve a broader audience and meet the growing demand for our offerings, we have also extended our reach beyond domestic borders. Today, House of Sach proudly exports its products and services internationally, bringing world-class craftsmanship and innovation to clients around the globe.

## Products

### Customized Solution

At the heart of our business lies a strong focus on product design and customization, enabling us to deliver highly tailored solutions that align perfectly with each client's unique vision, needs, and market demands. Our design philosophy integrates functionality, aesthetics, and innovation, ensuring that every product we develop is both practical in use and compelling in form. We take a collaborative, user-centric approach—working closely with clients, from concept to completion to understand their

objectives and challenges. Leveraging advanced tools and technologies, our team crafts design that are not only visually distinctive but also optimized for performance, efficiency, and scalability. What truly sets us apart is our ability to offer extensive customization across all stages of development, from material selection and color schemes to feature integration and structural modifications. This flexibility empowers our clients to bring their ideas to life with precision, resulting in products that stand out in the marketplace and drive lasting value

### Standardized Products

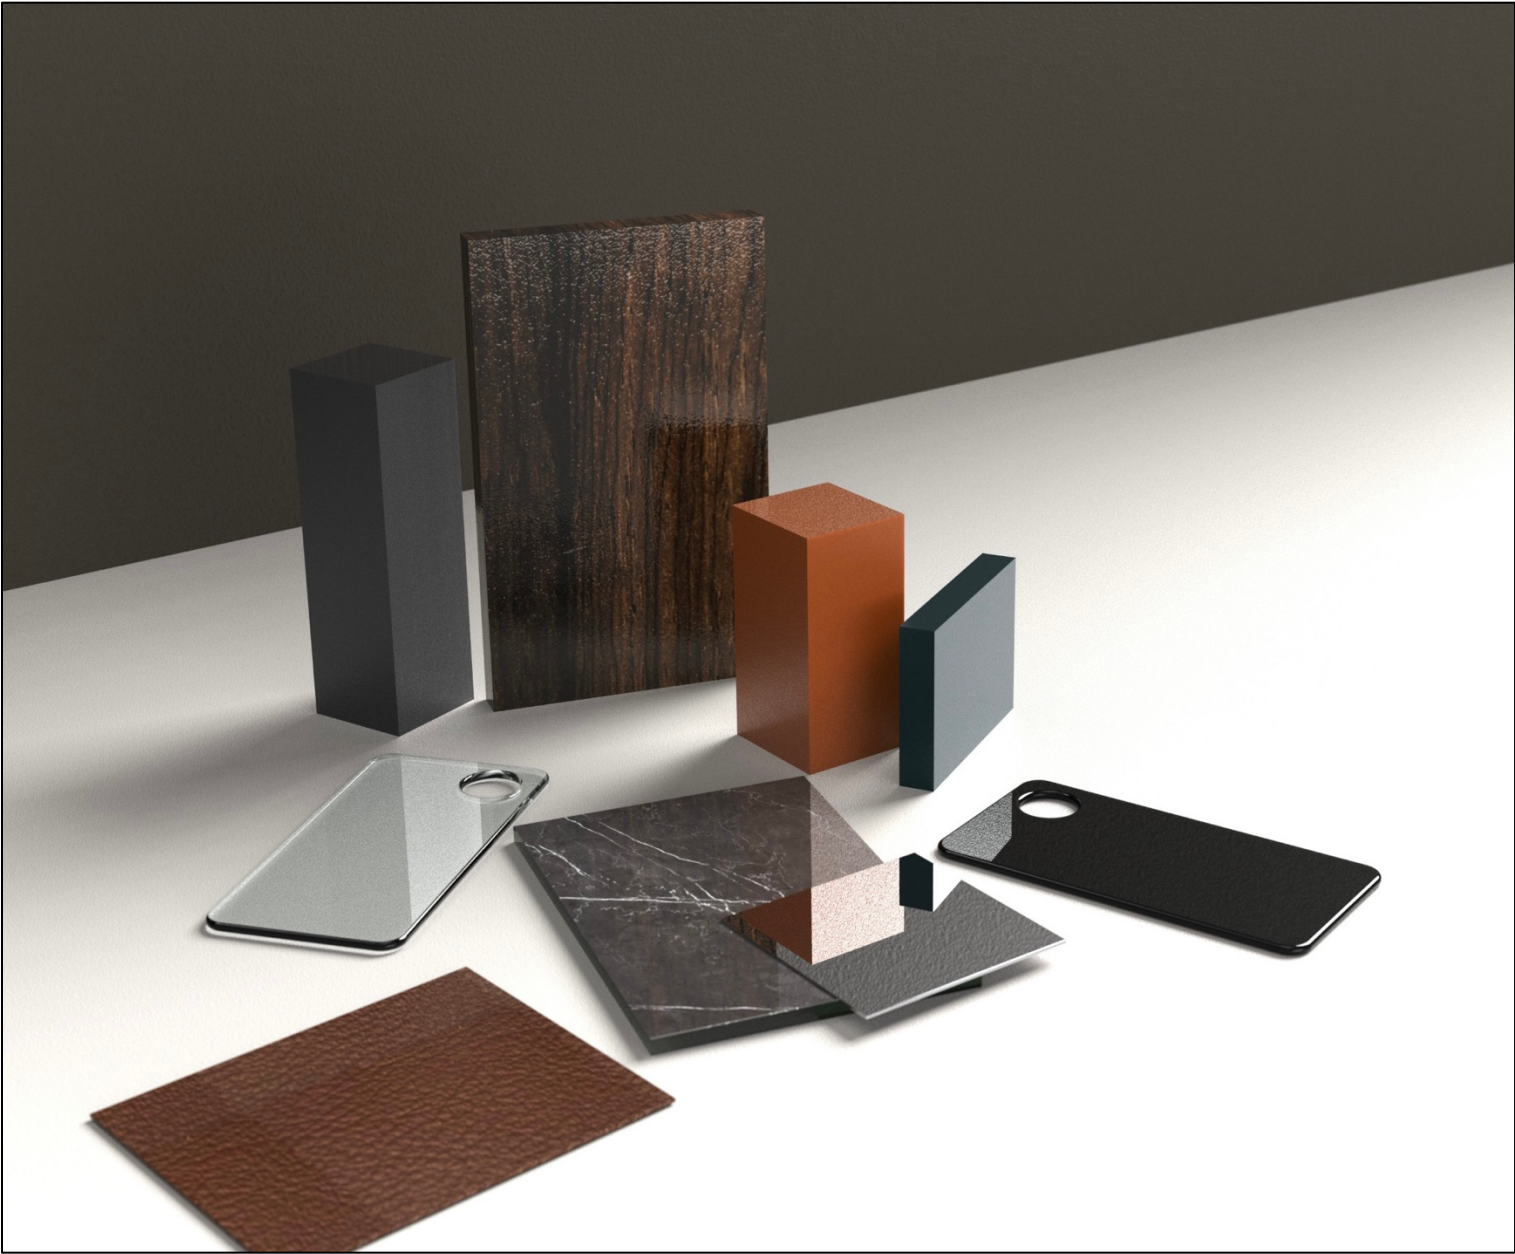

In addition to our customized solutions, we offer a range of standardized products designed to meet high performance and aesthetic standards across a wide variety of applications. These products are thoughtfully developed based on market trends, user needs, and industry best practices, ensuring consistent quality, reliability, and ease of integration. Manufactured with precision and using

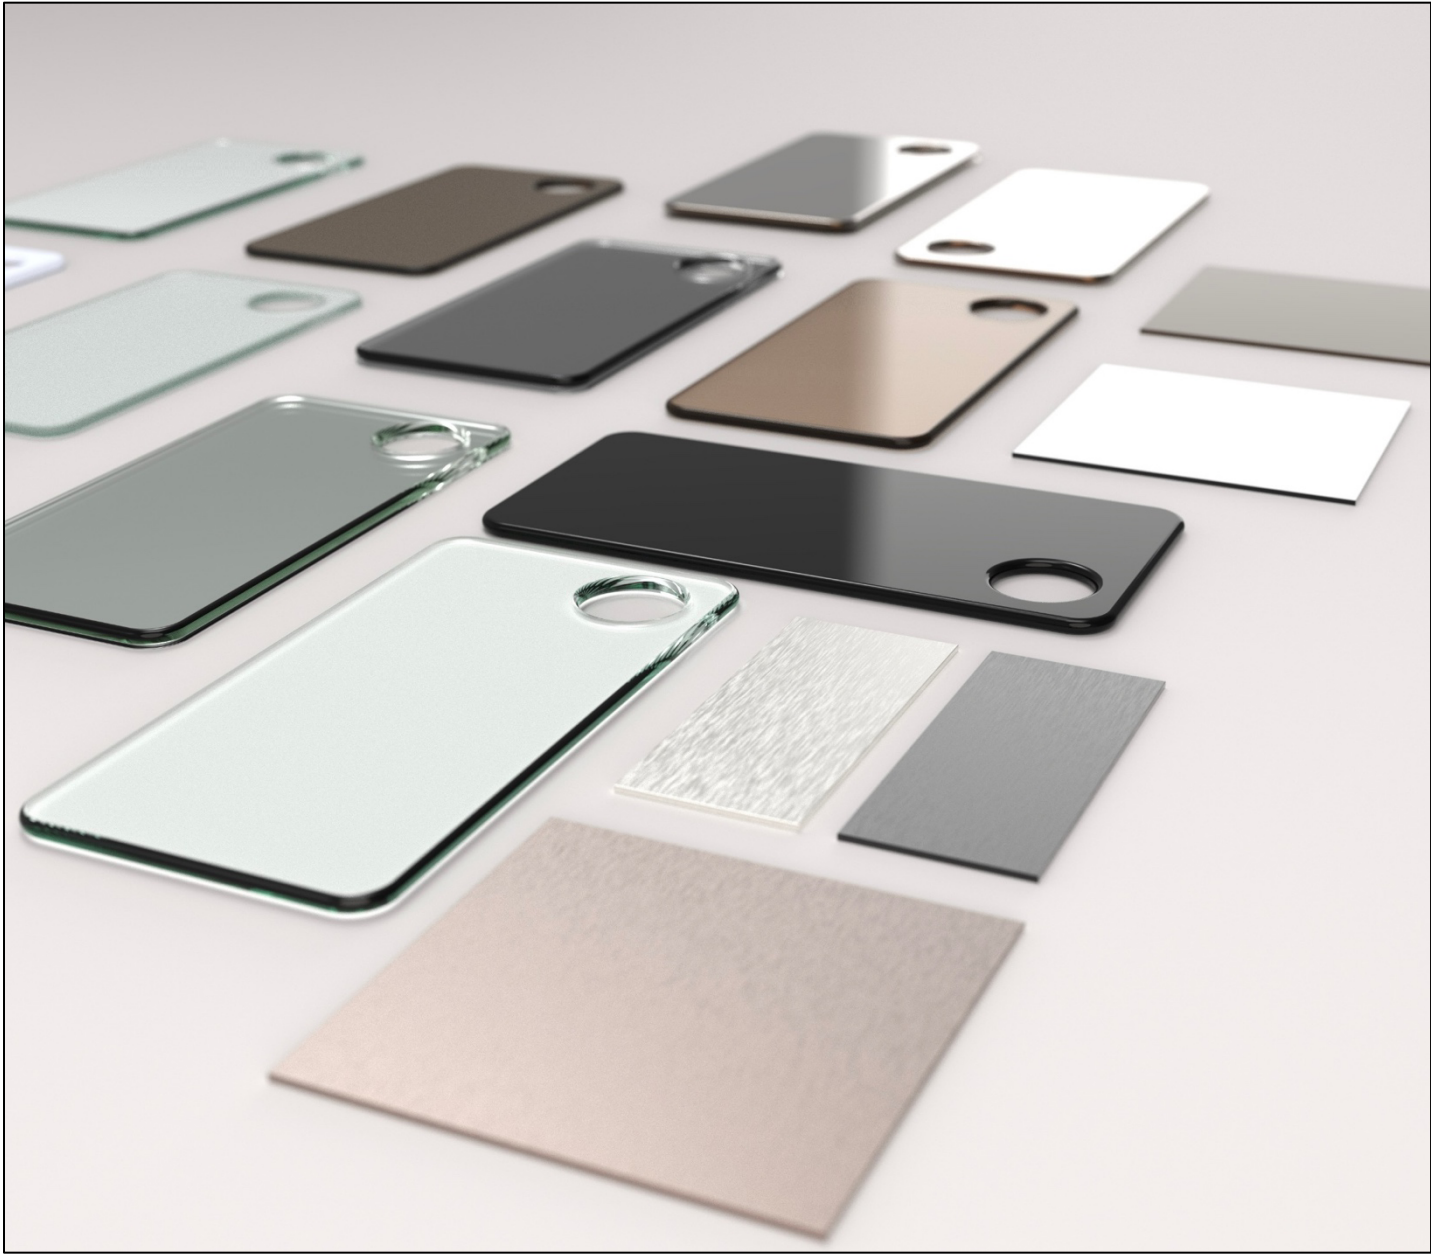

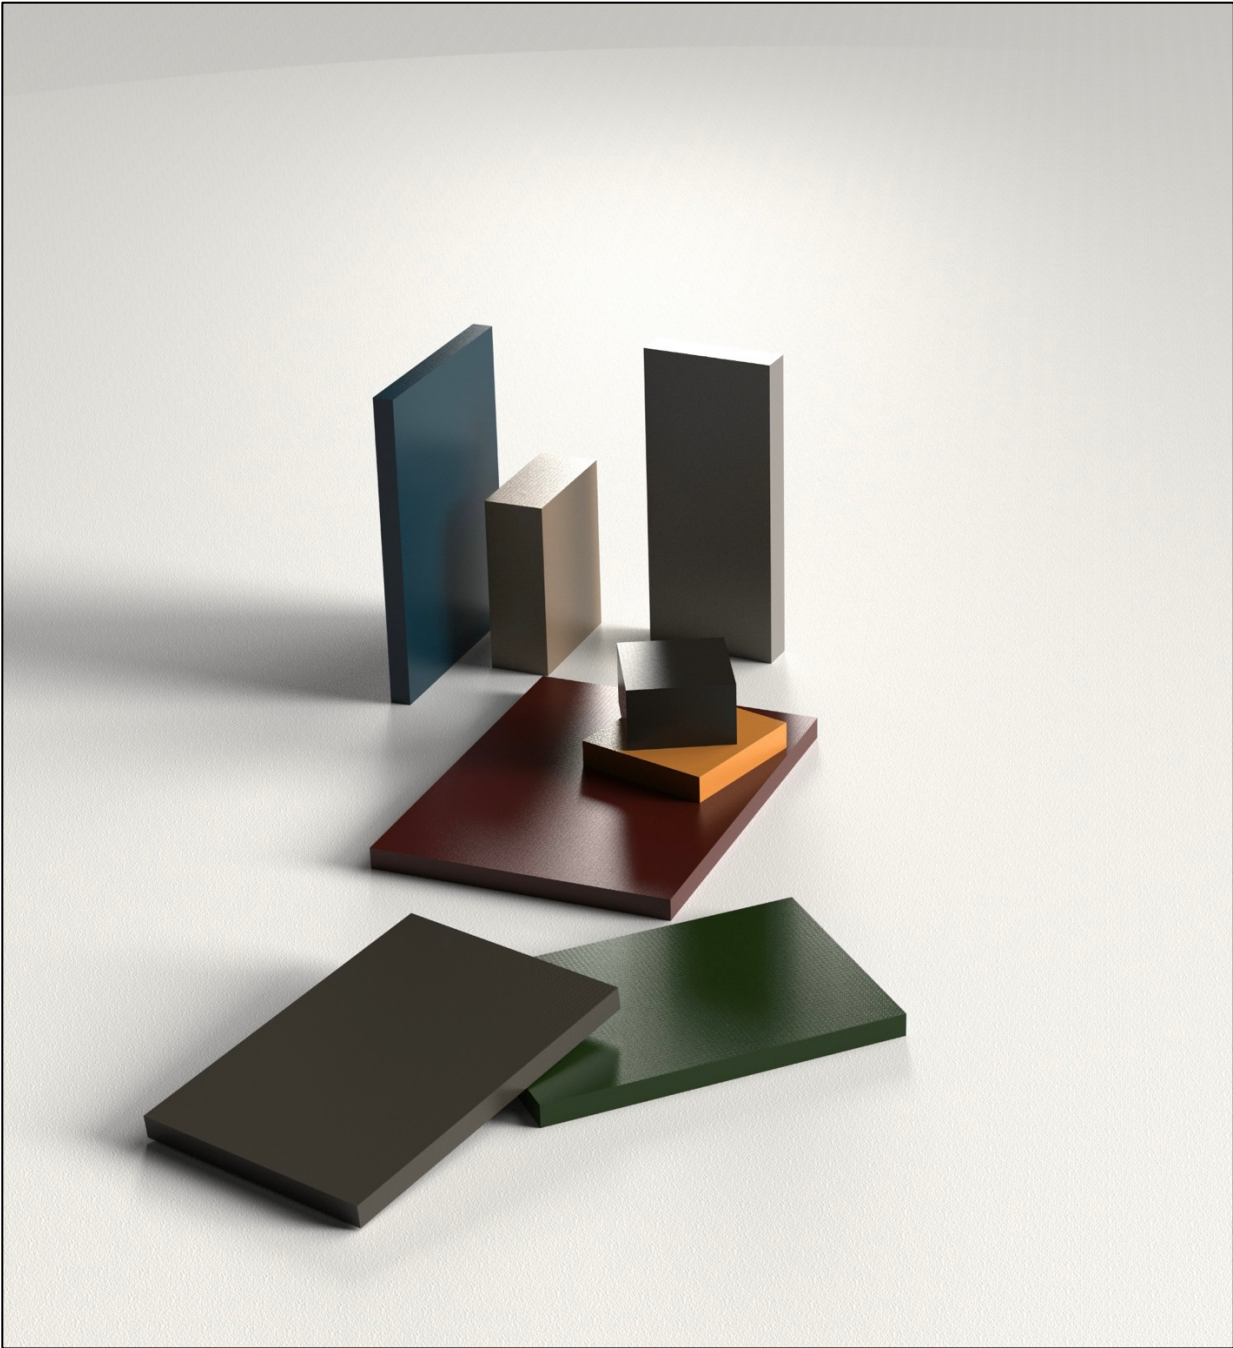

premium materials, our standardized offerings provide a time-efficient solution without compromising on style or durability. Ideal for large-scale projects or clients seeking ready-to-install options, all designed for seamless functionality and modern appeal. With streamlined availability and consistent production quality, our standardized products serve as a dependable foundation for any interior space.

## **Factory**

At House of Sach, we take pride in maintaining full control over our production process through our in-house manufacturing facilities. From concept development and material selection to fabrication and finishing, every stage is carefully managed under one name which is House of Sach. This integrated approach allows us to ensure consistent quality, faster turnaround times, and greater customization flexibility. Our skilled workforce and advanced machinery work in sync to deliver precision-crafted products that meet the highest standards of design and durability. In-house production not only enhances efficiency but also reinforces our commitment to excellence in every detail.

### **Routine Quality checks**

Quality is at the core of our manufacturing process. Our factory follows a strict regimen of routine quality checks at every stage of production to ensure that each product meets our exact standards. From raw material inspection to final product testing, our dedicated quality control team conducts thorough evaluations using calibrated equipment and standardized procedures. This proactive approach helps us identify and eliminate any inconsistencies early and ensuring consistent performance and customer satisfaction in every batch we produce.

## State-of-the-Art Imported Machinery

To ensure world-class quality and precision in our operations, our company utilizes cutting-edge machinery imported directly from Italy and Germany—nations renowned for their engineering excellence. These advanced systems enable us to maintain high levels of accuracy, efficiency, and consistency across all production processes. By investing in internationally recognized technology, we not only enhance our manufacturing capabilities but also uphold our commitment to deliver products that meet global standards of performance and reliability.

## Skilled Labor

Our company takes pride in its team of highly skilled and experienced professionals who form the backbone of our operations. Each member of our workforce is carefully selected and trained to meet the highest level of industry standards, ensuring precision, efficiency, and quality in every project we undertake. With expertise across various technical and trade disciplines, our skilled labor force plays a critical role in delivering reliable and innovative solutions to our clients. Their commitment to excellence and continuous improvement reflects our core values and supports our reputation as a trusted industry leader.

## **Production and Delivery**

### **Phase 1 – Design Selection**

The production journey begins with the Design Selection phase, where clients are guided through a curated range of design options that reflect their project's aesthetic and functional goals. Whether choosing from our existing catalog or developing something entirely new, this phase focuses on identifying the right style, materials, finishes, and technical elements. Our design team collaborates closely with clients, architects, and interior designers to ensure that the selected concept aligns perfectly with the vision and context of the space.

### **Phase 2 – Finalization of Selections & Processing of Drawings**

Once the design direction is clear, we move into the finalization phase, where all selections, reference images, and design elements are reviewed and confirmed. During this stage, our technical team prepares detailed shop drawings, 3D models, and production files for internal approval and client review. This step ensures all design specifications are accurate, feasible, and ready for execution. Every detail—from dimensions and materials to installation requirements—is carefully documented to ensure a smooth production process.

### Phase 3 – Design Approval & Commencement of Production

Upon receiving final client approval, the project officially enters the production phase. Here, our in-house manufacturing team takes over, transforming approved designs into precision-crafted products using advanced machinery and skilled craftsmanship. Every component undergoes strict quality checks during fabrication to maintain consistency, durability, and finish. This phase is highly process-driven, ensuring that the outcome is exactly as envisioned and ready for the final stage.

### Phase 4 – Delivery & Installation

The final stage is the Delivery and Installation Phase, where the finished products are securely packed and dispatched to the project site. Our logistics and site teams coordinate closely to ensure timely delivery and smooth installation. We take care of every detail—from safe handling and placement to final adjustments—ensuring the product is installed with precision and care. This phase concludes the production journey with a fully realized design, brought to life seamlessly within the client's space.

## **After-Sales Service**

At House of Sach, our relationship with the client does not end upon delivery—it marks the beginning of our continued commitment to service and satisfaction. We believe that exceptional products deserve equally exceptional support, which is why our after-sales services are designed to provide peace of mind and long-term value. Our dedicated team is available to assist clients with a wide range of post-installation needs, including on-site evaluations, product usage guidance, maintenance recommendations, and troubleshooting assistance.

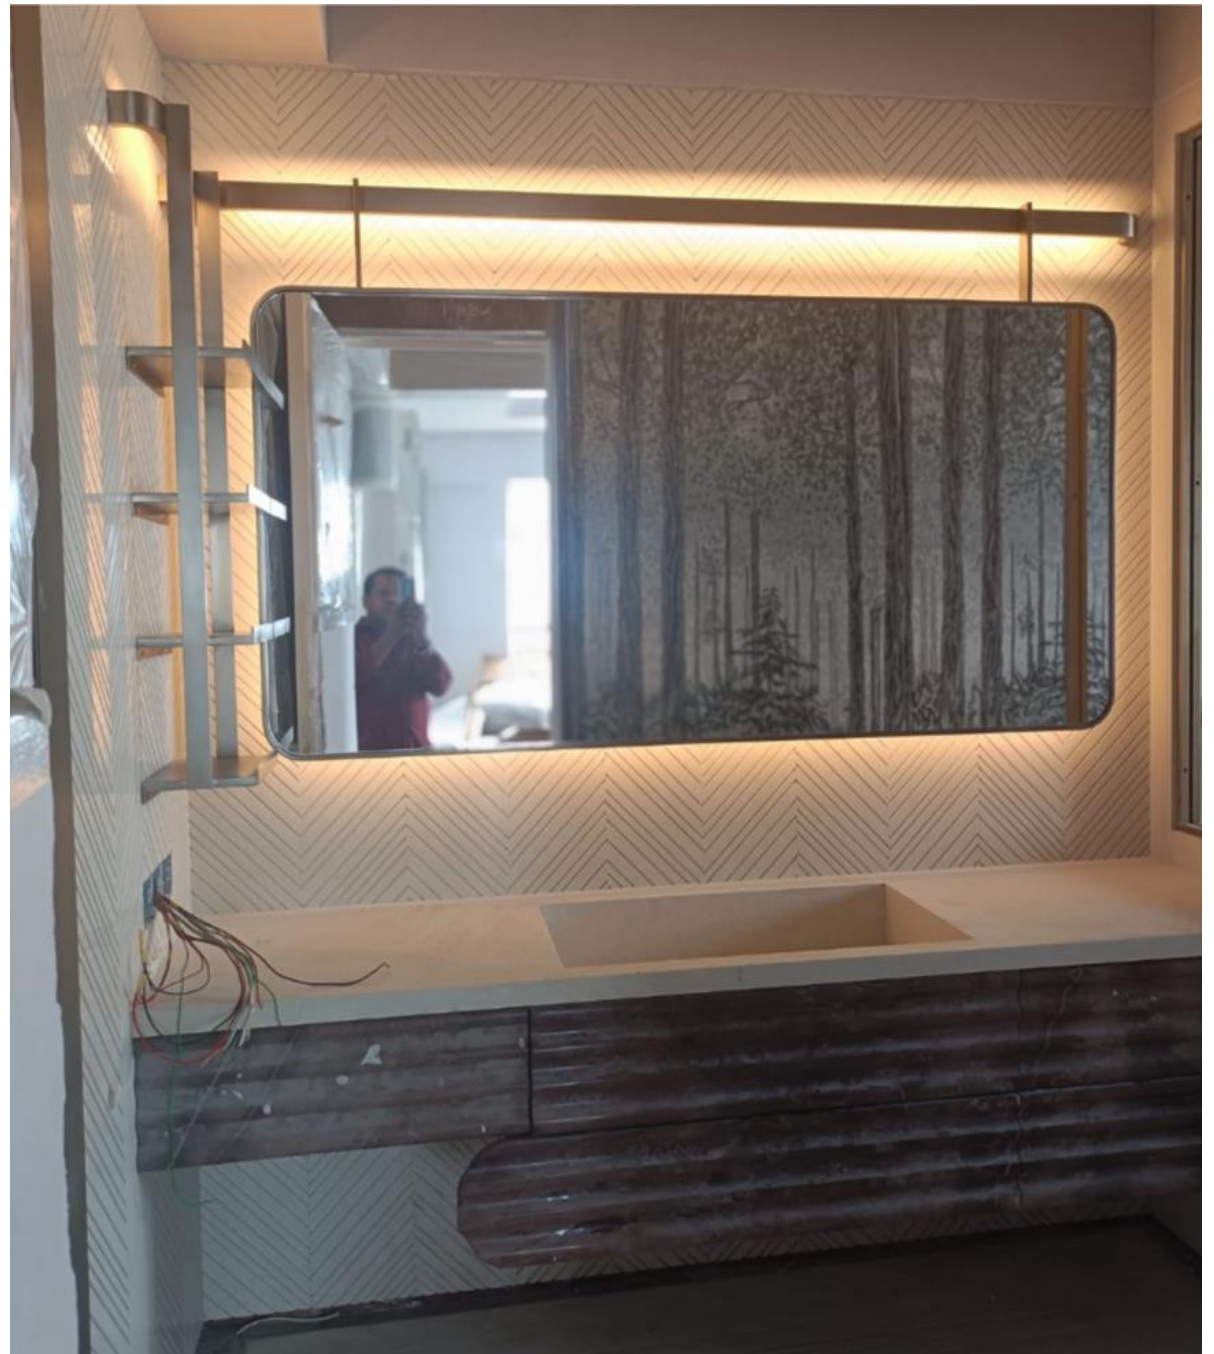

We offer structured follow-up protocols to ensure that every product is performing optimally once it is installed. Should any issues arise, our support team responds promptly with professional solutions and ensuring minimal disruption to our clients' daily operations or living spaces.

Whether it's a question about materials, help with cleaning and preservation, or a need for technical adjustments, our team remains accessible and proactive. This level of support is not only a reflection of our dedication to quality, but also part of our broader philosophy—building long-term relationships based on trust, reliability, and exceptional service. With House of Sach, clients can rest assured they are not just purchasing a product but entering a partnership that lasts well beyond the point of sale.
