In this session, participants will focus on developing deeper awareness of altered states and the different stages of trance along the continuum. Presentations, activities, and exercises will offer ways to deepen your understanding of energy, as well as the differences between intuition and psychic connections, dialogue with Spirit, messages from Spirit, and the process by which we can eventually learn to let go of obstacles in our minds and allow Spirit people speak for themselves in a cooperative partnership. Whether you are just starting your spiritual exploration or are seeking additional training, this class offers an opportunity for growth and learning.
