Details: Whether you're just beginning to study and explore your Spiritual gifts, or if you are already serving Spirit, we continue to grow and unfold our Mediumship. Our Spirit teachers are learning right along with us. They continue to progress as we do and our Spirit band is guiding and protecting us.

Join us as we explore many types of Spiritual gifts such as psychometry, flower readings, and mental, physical, and evidential mediumship. Our guides and teachers appear when we, the students, are ready. We will learn about intention, platform message work, private readings, and absentee healing.

Come join us as we learn and share.

*Please bring with you an object from a loved one in Spirit to use
in the psychometry portion of our class.*

Host: Rev. Bonnie S. Woods is a long time member of FST and is an ordained Spiritualist Minister through The Circle of the Soul School of Healing and Spiritual Philosophy.
