About GAPPE

GAPPE- Global Alliance for PPE - is the flagship Personal Protective Equipment brand of G. D. International, one of India's most trusted manufacturers of industrial safety products. GAPPE was built on a single belief: that every worker in every corner of the world deserves protection that is reliable, certified, and built to last. Our products are designed for real industrial environments - oil & gas, construction, manufacturing, mining, and beyond.

About G. D. International

G. D. International is one of India's leading manufacturers of Personal Protective Equipment and Workwear, with over three decades of experience supplying to global energy, oil & gas, and industrial companies across 30+ countries. We are a fully vertically integrated manufacturer - fiber in, garment out - with spinning, weaving, dyeing, and stitching all under one roof. This means complete control over raw material quality, fabric consistency, lead times, and cost from the very first thread to the finished product bearing your brand.

Hand Protection

Classification and performance requirements for hand and arm protection against cuts, punctures, needlestick, heat, and chemical hazards.

All GAPPE PPE products are CE certified.

Warrior

Safety Footwear — Article: GAP-81FW

EN ISO 20345:2022

The Warrior GAP-81FW is a high-performance protective boot engineered for challenging industrial environments. Crafted with durability and comfort in mind, this footwear ensures superior protection and long-lasting wear for professionals across various sectors.

Product Features

- Upper:** Premium Leather - enhanced durability and professional finish.
- Lining:** Breathable Black Famina for all-day comfort.
- Toe Cap:** Composite 200 Joules impact resistance - non-metallic.
- Insole:** Kevlar - lightweight yet extremely strong and flexible.
- Outsole:** PU/Randal HRO - heat resistant up to 300°C, antislip, abrasion resistant.
- Mold:** Ergonomic design for optimal foot support.
- Side Zipper:** Easy quick on/off without compromising fit or support.

Safety Standard

Product Features

Safety Helmet

Protective Helmet — Article: GAP-BBW

EN ISO 397

The GAPPE GAP-BBW Safety Helmet features an impact-resistant ABS shell with a 6-point textile suspension and ratchet adjustment for a secure fit. Its aerodynamic design includes top ventilation holes for airflow and a foam sweatband for added comfort.

Product Features

- Shell:** Impact Resistant ABS — robust protection against impacts.
- Design:** Aerodynamic — distinctive style with universal appeal.
- Rain Gutter:** Integrated rear design for water diversion.
- Ventilation:** Unique vent holes at highest peak for maximum airflow.
- Suspension:** 6-point textile ratchet lock for secure adjustable fitting.
- Sweat Band:** Foam sweat band — enhanced comfort during long wear.
- Brim:** Short brim design — offers a broader field of view.
- Size Range:** 50 cm to 62 cm head circumference.
