**META COMMS**  
WIRED FOR WINNING

# Core Benefits

- ✓ Remote access via an app
- ✓ Night Vision
- ✓ Listen Live
- ✓ Speech through a microphone
- ✓ People Counting
- ✓ Heat Mapping
- ✓ Queue Detection
- ✓ ANPR

## Upgrade to IP Now!

While analogue cameras may seem cost-effective initially, in the long term, they tend to incur higher expenses. Maintenance, upgrades, and replacements add up over time, making analogue systems more costly than IP alternatives. Additionally, analogue systems become less reliable over time, increasing the likelihood of failures. Make the switch to IP cameras for a more reliable and cost-efficient security solution!

# HIKVISION®

# Benefits

## View footage instantly from your mobile app!

Watching CCTV footage from a mobile app offers unparalleled convenience and flexibility. With this technology, you can monitor your company's premises remotely, enabling swift response to any security issues or operational concerns from anywhere at any time. This capability not only saves valuable time that would otherwise be spent on-site but also enhances overall efficiency and peace of mind. By having instant access to live feeds and recorded footage on your mobile device, you can stay connected and in control, ensuring the safety and smooth functioning of your business effortlessly.

## No longer struggle in the dark!

Accessing CCTV footage with night vision capabilities through a mobile app offers a universal advantage across all businesses, irrespective of industry. This cutting-edge feature enables seamless monitoring of premises during night time hours, eliminating the struggles associated with poor visibility on traditional CCTV cameras. This enhanced level of surveillance not only deters unauthorised access and criminal activities but also provides invaluable peace of mind, knowing that your business is protected at all times, day or night.

## Current cameras not up to the job?

In environments such as pubs or bars, where incidents like fights or crime can occur, standard CCTV cameras may not suffice. Meta Comms recognises the critical need for robust surveillance in such settings and provides tailored solutions to address these challenges. Our specialised cameras are equipped with features like low-light sensitivity and wide-angle lenses to ensure clear footage, even in dimly lit areas where altercations may take place. With Meta Comms, pub owners can deploy a comprehensive surveillance system that not only deters unruly behavior but also provides crucial evidence for law enforcement if needed, enhancing safety and security for customers and staff alike.

## Struggling to decide what you need?

Meta Comms simplifies the overwhelming process of choosing CCTV cameras by offering expert consultations tailored to your business needs. With our guidance, you can confidently select the most suitable solutions, ensuring optimal security and operational efficiency. Contact us today for a free quote!

## Network cameras

### Bullet Network Camera

- 4/6/8 MP
- 0.0005 lux @ F1.0
- 1/1.8" CMOS sensor
- 2.8/4 mm lens
- Smart Hybrid Light
- H.265/H.265+
- 130 dB WDR
- Up to 40 m suppl. light range
- IP67

### Dome Network Camera

- 4/6/8 MP
- 0.0005 lux @ F1.0
- 1/1.8" CMOS sensor
- 2.8/4 mm lens
- Smart Hybrid Light
- H.265/H.265+
- 130 dB WDR
- Up to 40 m suppl. light range
- IP67

### Turret Network Camera

- 4/6/8 MP
- 0.0005 lux @ F1.0
- 1/1.8" CMOS sensor
- 2.8/4 mm lens
- Smart Hybrid Light
- H.265/H.265+
- 130 dB WDR
- Up to 40 m suppl. light range
- IP67
