## ERICKSONIAN HYPNOSIS

AND

## THERAPEUTIC TRANCES

WITH

### STEPHEN G. GILLIGAN, PH.D.

I am happy to announce that one of the world's leading experts in therapeutic hypnosis is coming to Denmark. Stephen Gilligan will teach an intensive two-day training course in Ericksonian hypnosis on March 15 & 16, 1993, sponsored by NLP World, Copenhagen.

This is a learning-by-doing seminar where you will be shown creative ways to be a more effective therapist. You will observe and practice a variety of induction techniques useful with different kinds of clients. There will also be several opportunities to experience naturalistic trance. You will discover how hypnotic processes can access unconscious resources, shift frames of reference, align intentions and build confidence. When you learn Milton Erickson's essential principles of psychotherapy together with his contemporary methods of hypnosis, you will have gained a model for empowering both you and your clients.

This workshop will contribute to your professional as well as your personal development, whether you are a psychologist, psychiatrist, social worker, family therapist, NLP practitioner or other mental health counsellor, or if you have a medical or dental practice. The skills and understanding which you will be able to apply after Stephen Gilligan's Ericksonian hypnosis training can make a dramatic difference in your ability to secure lasting results in your work.

This is going to be an exciting program. *If you have an appreciation for your unconscious mind - the part of you that beats your heart, retrieves memories, wakes you up in the morning before your alarm goes off and drives your car, getting you safely to your destination while you daydream - then this seminar is for you. I hope to see you there.*

*Arthur Buchmann*

### STEPHEN G. GILLIGAN, PH.D.

Stephen G. Gilligan, Ph.D., received his doctorate in psychology from Stanford University and studied with Milton H. Erickson for over four years. Dr. Gilligan is the author of *Therapeutic Trances: The Cooperation Principle in Ericksonian Hypnotherapy* and the co-editor of *Brief Therapy: Myths, Methods and Metaphors*. In addition, he has published numerous articles on learning, memory, psychotherapy and of course, hypnosis.

Stephen Gilligan has conducted Ericksonian hypnotherapy trainings since 1975, and he has taught as a faculty member at every national and international meeting of the Milton H. Erickson Foundation. He maintains a private practice near San Diego, California. Steve is especially well-known and highly respected for his ability to teach theory and practice in an experiential, comprehensive, humorous and caring fashion.

*"Steve Gilligan, one of the world's most effective hypnotists."*  
- John Gruber and Richard Bandler

*"Stephen Gilligan's workshops in Ericksonian approaches can facilitate the creativity of psychotherapists of all schools of thought."* - Ernest L. Rossi, Ph.D.

*"Stephen G. Gilligan, Ph.D., is an engaging & erudite teacher of Ericksonian methods. His blend of didactic demonstrations and exercises are sure to please. One of the most proficient practitioners of Ericksonian hypnotherapy, his presentations at our meetings have been consistently among those most highly valued by attendees."* - Jeffery K. Zeig, Ph.D., Director, Milton H. Erickson Foundation

### THIS TRAINING IS FOR YOU

If you are interested in change for your clients as well as for yourself, this professional Ericksonian hypnosis training provides that opportunity. You will experience demonstrations, exercises, group inductions and case discussions, all blended with instructive lectures. Special attention is given to the balance between developing the therapeutic relationship and utilizing hypnotic techniques. A major goal for your active participation is to increase your abilities to think more clearly, act more decisively, interact more directly and feel with greater sensitivity.

### REGISTER NOW

**Qualifications:** This seminar is open to practitioners in psychotherapy, counselling and related professions. Students and others in appropriate training programs are welcome providing they supply a letter demonstrating their official status. No prior experience with hypnosis is required.

**Dates:** March 15 & 16, 1993 - 10:00AM to 6:00PM each day. Registration begins 9:30 Monday morning, March 15.

**Location:** SAS Falkoner Center  
Falkoner Alle 9 DK-2000 Frederiksberg Copenhagen, Denmark  
Telephone +45 31 19 80 01 Telefax +45 31 87 11 91

**Tuition:** D.Kr. 3500. Coffee and tea are served all day, and lunch is of course included. **Deposit:** D.Kr. 1000 will reserve your place in the workshop. The balance is due at registration. A certificate of attendance signed by Stephen G. Gilligan, Ph.D. will be given to all course participants.

**Payment:** Please send to: NLP World, Copenhagen  
Østerbrogade 210, 5 DK- 2100 Copenhagen Ø, Denmark  
Telephone +45 39 27 44 99 Telefax +45 35 36 50 80

### ***Depressionsbehandling med IPT Interpersonal Psykoterapi***

**Den 30. januar 2009**

**Indhold:**

Interpersonal Psychotherapy (IPT) as developed by Drs. Klerman and Weissman, is an evidence based model of time limited psychotherapy that has proven effective in helping adults, geriatric populations and adolescents with depression. This model has been adapted to treat clients with eating disorders, post-partum depression, medical illness including HIV and cardiac problems, personality disorders and social anxiety.

In this workshop, the participants will learn:

1. To identify major components of the IPT approach to the treatment of depression.
2. Outcomes from randomized trials of IPT for the treatment of depression.
2. The rationale for utilizing an IPT approach with a depressed population.
3. To identify the strengths and limitations of the IPT approach.

**Antal undervisningstimer: 6**

**Treatment of Depression with IPT  
(INTERPERSONAL PSYCHOTHERAPY)**

**Undervisere:**

Dr. Ronald Frey, Ph.D.

**Please note that the course description  
is translated to English.**
