

Natural Allergy Solutions CONTINUES to be OPEN as a designated Essential Infrastructure Workforce business during the [Corona Virus COVID-19](#) outbreak.

We have adopted the [CDC's plan for Cleaning and disinfecting our Facility](#), protecting our employees and our clients.

Additionally, we adhere to [The Whitehouse Corona Taskforce's Guidelines](#) for Keeping Workplaces, Homes, Schools, or Commercial Establishments Safe.

We want to ensure the cleanliness and safety of our office. Routinely, we have the office treated by a service that has been approved by the EPA to kill COVID-19 as well as other viruses and bacteria. We take time in between every client visit to clean offices, bathrooms and other high touch areas with the same disinfectant.

You will notice we have implemented an Office Visit Protocol outlined in our last newsletter. Here are the highlights.

We have:

- Closed common areas, lobby, kitchen, hallways.
- Clients wait in their cars in back parking lot. We will let you know when you may enter safely.
- Limited access to the building to one client at a time. Pat's BEMER clients enter the office through the NEW front door only. Debra's clients enter through the back entrance only.
- All clients wash hands upon entering the building before beginning and after their therapy session.
- Clients wait at a GATE inside to pickup/pay for supplements and pay for session.
- We gather your supplements for you and package them for safe travel.
- We accept credit cards, cash and checks. When using credit cards, clients will read pertinent information to the receptionist (you will be the only person in the office at that time to ensure privacy, as well as safety).

We at [Natural Allergy Solutions](#) will continue to develop and implement appropriate policies, in accordance with Federal, State, and local regulations and guidance, and remain informed of industry best practices to ensure everyone's safety and comfort.
