Speech Pathology	\$259	\$194	Initial Assessment	1	1	\$453.00
			Subsequent Consultation	0.75	0.75	\$339.75

Important Note

Direct Activities: These services include direct participant consultation and/or clinical support, travel to and from the participant within the unit-costed rate. These components are bundled into the hourly rate to ensure clarity and consistency in billing.

Indirect Activities: These are services where the health professional's expertise is applied outside of direct client contact. This may include the time taken to complete an accurate progress note and reports, produce clinical reports to other service providers, participate in case conferences, or develop clinical programs or guides for clients or carers.

GST Treatment: Rates listed in this document are exclusive of GST unless otherwise stated. GST will apply where services are provided as a subcontracted service to another organisation in accordance with current ATO guidance.

Unit Pricing and Billing Structure: All unit prices (hourly rates) are billed in 15-minute increments. This approach allows for flexible and accurate billing in line with the complexity of the service and the time required for both direct and indirect clinical activities.

Service Cancellations: To ensure fairness and continuity of care, the following applies to all scheduled services. In both cases, a cancellation fee (equivalent to 100% of the face-to-face time scheduled) will apply unless the participant provides reasonable grounds, which may include emergency hospital admission, a significant health incident, or loss of a loved one. We may exercise reasonable discretion in applying the fees.

- A late cancellation occurs when a participant cancels a scheduled service with less than **2 business days' notice**.
- A 'no show' occurs when a participant is not present at the agreed time and location for a scheduled service.

Parking Fee: If free parking is not available at or near the client's home, and our clinicians are required to pay for parking, 100% of the parking fee will be added to the Allied Health service fee. Parking in shopping centres may not be suitable due to safety risks and the time required to access or exit large complexes. Our clinicians are advised to use the most practical and accessible parking available, and any paid parking incurred will be included in the final invoice.
