

Super Rehab Support at Home Fee Schedule

Effective from 1 November 2025 (V1.2)

- **Introduction**

In line with the Support at Home program commencing 1 November 2025 and updated guidelines from the Department on 7 October 2025, Super Rehab have updated the pricing structure to ensure full compliance and transparency. **Our pricing structure now reflects distinct time-based billable units for face-to-face ('direct') activities and for related indirect activities**, such as documentation, case conferencing, service coordination and planning. As required by the guidelines, travel costs are now incorporated into unit price for direct activities. Our hourly (billable units) rates are billed in 10-minute increments, allowing for flexible, accurate billing in line with service complexity. To assist with service planning and participant communication, we have included indicative per service fees based on typical session durations. These indicative fees are a guide and may vary depending on the complexity of the client's needs or the time required for assessment and documentation. Our goal is to support a smooth and collaborative transition to Support at Home for your team and clients.

- **Service Cancellations**

To ensure fairness and continuity of care, the following applies to all scheduled services:

- A late cancellation occurs when a participant cancels a scheduled service with less than 2 business days' notice.
- A 'no show' occurs when a participant is not present at the agreed time and location for a scheduled service.

In both cases, a cancellation fee (equivalent to 100% of the scheduled face-to-face session time) will apply unless the participant provides reasonable grounds, which may include emergency hospital admission, a significant health incident, or loss of a loved one. We may use discretion in applying the fees.

- **Parking Fee**

If free parking is not available at or near the client's home, and our clinicians are required to pay for parking, 100% of the parking fee will be added to the Allied Health service fee. Parking in shopping centres may not be suitable due to safety risks and the time required to access or exit large complexes. Clinicians are advised to use the most practical and accessible parking available, and any paid parking incurred will be included in the final invoice.

- **Future Pricing Adjustments**

Please note that hourly rates may be adjusted in the future to remain compliant with any updates to the Support at Home billing guidelines. Should this occur, Super Rehab will provide a minimum of 4 weeks' notice to all stakeholders before any changes take effect.

Allied Health Services – Direct and Indirect Activities

Service Group / Service Group ID: Home Support / SERG-0001

Classification: SaH Classification 1-8; SaH Restorative Care Pathway; SaH End-of-Life Pathway

Service Type: Allied health and therapy
