

#128 **Twinkle Twinkle** Little Star

Twinkle, *twinkle* little star
How I wonder what you are
Up above the world so high
Like a diamond in the sky.

That short kid's poem does this one thing right.

It gets young souls to enjoy the night.

It's natural to ask questions about nature and God. That's what we were Taught.

Still have questions why your life didn't quite turn out like you'd thought?

Maybe it's because we lose those inhibitions to discover,

Especially when *it comes* to finding **Peace & Joy; &** now for me; a new *Lover*.

We get programmed to believe being wrong ever is NOT all right.

This pretty much quells most people's inspiration to rise to a higher height.

It's much safer and easier to just go with the flow.

Don't buck the system when you find a whistle that **needs to blow**.

It usually has to do with someone's almighty dollar

Because *to improve means losing power* which makes people holler.

The concept of **Joy** I now believe in is - *simplicity at its best*.

Do what I can now and let God do all the rest !

It's merely **my INTENTIONS (that WILL)*** get things done

And it happens when one is merely **WALKING with God, not "on the run"**.

This awareness is that there's really nothing to fear.

No matter where you "**think**" you "**are**", **LOVE IS ALWAYS NEAR**.

The twinkling of the stars in the dark suggests this **peace**;

That **the "thought"** we **have** to "**earn**" – anything – should cease.

#128 *Twinkle Twinkle* Little Star

This shows *we're to understand* the concept of contradictions.

Science can't actually prove anything but only makes qualified predictions

Based upon what the past has repeated so often

To suggest a "New Way" starts closed-minded people scoffin'.

Even a thing is that seems to be **the tiniest change means "Brand New"**.

The world turns and with each second the **night's black sky** turns to **morning's Bright blue**.

Black & blue are colors that usually happen when our flesh fights with nature.

I'm going to suggest right here and now that you'll be wiser to **bate your**

Fishing "*line*" in the "**Pond of Your Dreams**" with *words* of **Joy** and **Gratitude**.

We live where miracles happen when we own the **BEST ATTITUDE**

That's open to changes, because *that's* what the twinkles ARE !

Ideas are **God-Light flashes** that propel us forward. Maybe to even **visit THAT Star** !

Positive vibrations get emitted when ideas "**come to light**".

I can let go of everything *knowing* **LOVE's holding me tight**.

RELAX and ENJOY the tremendous blessings I now choose to **perceive . . .**

I'm Adam in MY "Garden Of Eden" & already enjoying sharing its gifts with My "Eve".

That's the vibration I choose to send **out**

And to not "**have her now**" I will not **pout**.

She's so near to me now **but only invisible**.

God seems to always tease me in ways that **make me miserable**.

But I **KNOW** it's really His Way to tell **me**

That **to finally find** her I'll have to see

That when the time is **PERFECT** I'll visit "**My Twinkling Star**"

And find out for myself – what you really ARE !!!

(contemplate upon Will & all highlights, as constantly suggested)_
