

#13 Your Heart / Part Two

You asked for words of encouragement.
For the Love of God please to be sent,
So you could see when times are tough
Why things you do are never enough!

The first thing you must comprehend...
Why peace of mind is so hard to defend.
It's all in the attitude that must be right
That keeps God's Love within our sight.

When one learns about the truth,
The search for it is not uncouth.

Why Christ was born and died for all
Who'll turn to Him so not to fall

Into the traps that Satan sets
In hopes that all mankind forgets
That through pain and sorrow is how we learn.
When we seek comfort...to Him we turn.

And who is Him? Are you confused?
'Cause if you are then Satan's amused.
If Him to you is not our Christ;
Your soul the Devil did just heist!

'Cause his great plan to comfort you
Will keep you guessing, "What should I do?"
He'll distract your mind so you can't even tell
He's sending you down that wide road to Hell!

He'll tell you to take another drink
Then of your problems you will not think.
Or take a snort or another hit
And surely soon you will forget.

#13 Your Heart / Part Two

These things may bring you pleasure now
But in the end you'll "have a cow"
When you find out they were a sin.
And turn from them you must begin.

To find the peace and warmth within
You must trust that Christ will win
The battle that rages for your soul
Once you learn to take control.

You'll understand the Devil's tricks,
And that in God's plans they will not mix.
When you open your eyes and see the light
You'll learn exactly just how to fight.

With truth and love you are made strong.
You'll know to whom you do belong.
Through all these things you will endure
When you keep your heart clean and pure.

He'll show you things that you have faced,
And to what sins they can be traced
So in your heart you can repent,
His Love and comfort will then be sent.

Then you will grow as He has planned
When you've been watered from his hand.
The Word in His book is what He gave
So ALL His children WILL be saved!

It's filled with stories of grace and hope;
Of how and why we are to cope,
By learning the lessons that have been passed.
From generation to generation, down to the last.

#13 Your Heart / Part Two

It's up to you to do your part;

To listen to what is in your heart.

Is it to live but for yourself?

Does His book belong up on your shelf?

Or in your hands and opened wide

So you will learn what is inside

To get the blessings it does bestow

In Revelations for those who know.

So in the end you will be sure,

To end the pain, He is the cure!

And you'll know the reason it has to be;

FOR ONCE YOU WERE BLIND...

BUT NOW YOU SEE!!!
