

## #14 WHAT TIME IS IT?

What time is it? The question is.  
Should we go by our, or maybe His?  
There is a difference and I'll tell you why  
So you and I don't have to die.

Do you know what I'm talking about?  
Or do I have to start to shout  
The truth out loud so all can hear  
Around the world both far and near?

It's the message the whole world has to hear  
But doesn't listen to because of fear.  
It has to do with sacrifice,  
And most the world won't pay that price.

It's only because of ignorance  
And lack of good old common sense  
That people fail to see the light;  
Don't care to learn what's wrong from right.

My people die from lack of knowledge.  
They'd rather believe what they learn in college.  
It fills their minds with silly lies  
So belief in God's word slowly dies!

Social science and health and evolution  
That brought the world to revolution.  
Beliefs that mankind can find the answers  
While only bringing on human cancers.

If you live your life for your own gain  
You carry on the sins of Cain  
Who killed his brother Able because of pride  
And the pain he felt way deep inside.

## #14 WHAT TIME IS IT?

He hadn't learned to find the joy  
God created for every girl and boy  
When they look inside their heart and see  
The way God intended them to be.

When they live their lives within the rules  
They understand they've got strong tools  
To help them overcome the Devil's tricks  
And choose the path the good Lord picks

That's guaranteed to give them life  
And find their right husband and wife  
To raise a family that worships God.  
And unlike Cain...not end up in Nod.

The land of Nod is still here today  
Where greed and lust is still the way.  
It's all for one and one for me!  
Get off my case and let me be!

A place where God's Spirit dwelleths not.  
People worry about whether their bodies are hot.  
*A world whose focus is for pleasure now!*  
*As long as they get it... they care not how!*

The time is right for Judgment Day.  
If you have love in your heart you'll hear what I say  
'Cause that's the thing we need to spread  
To get God's plan to move ahead.

He's going to end the way it is.  
The exact time known is only His bizz.  
For no man knows the day or the hour,  
But that doesn't mean we have no power

## #14 WHAT TIME IS IT?

To recognize the time of the seasons.  
In His word are plenty of reasons  
The children of light will know it's Nye;  
For His Spirit will shine out from our eye

To pierce the souls who want to know  
Is it okay to stay or time to go?  
To leave this wicked world behind;  
The way to God they want to find!

And that's through CHRIST...the only way,  
Who died for us. He had to pay  
To redeem our sins. He was the Lamb  
To save us all from being damned!

He's coming back soon, this time a Lion  
To see who loves Him and who's really tryin'  
To be a witness and a watchman too  
To the truth of His word that's coming true!

In the world's it happens often.  
Wake up now before you hit your coffin,  
'Cause then it will be too late to save your soul  
Once they're lowering you down into your hole!

You've had your chances, and many have tried  
To get you the word. They may even have cried  
And prayed to God he'd open your ears  
And end their sorrowful streams of tears

Because we cry for those of this world  
Who won't repent before that day's unfurled  
When Christ says, Come, and be with me bride,  
It's time for you to be by my side

## #14 **WHAT TIME IS IT?**

And we'll destroy this evil system.  
While many will cry because they missed 'um  
As they get thrown into the "Lake of Fire"  
While wishing they had ended up somewhere higher!

But God gave them time to sort it out.  
Instead of smiling...they had to pout  
And failed to get back into His hand.  
They had their heads stuck in the sand.

They could not see and did not hear  
The message that THE END WAS NEAR  
So they'll burn in Hell for eternity!!!  
They should have just got on a knee

And prayed to God to forgive their sins.  
'Cause when one does, the healing begins  
And the scales fall off their blinded eyes  
As they read the Word and become more wise

And understand why it took so long  
For them to see what's right from wrong  
And turn to God for wisdom and strength;  
To run the race the entire length,

And avoid the pitfalls that will surely come.  
Still hit the obstacle but not be dumb  
To realize that with strife we learn new things  
And see the blessings that overcoming brings.

We grow in spirit when we do well  
And stay far away from the gates of Hell,  
And give glory to God for evermore,  
And thank Him forever that  
He knocked on our door!!!
