Page 1 of 2

The **pulses** of **life** flow through our **veins**.

WHAT **HAPPENS** then is our bodies **SHOW** **WHAT** reigns...

The **PASSION** of the **E*M.O.*TION** is the **ENERGY** **THAT** sustains

The **JOYS** we **CHOOSE** to experience **TODAY**, or the **pains**.

The thoughts we even **think**... we **CAN** **influence**.

A time of preparation & applying **PrACTical** movement towards success ...

S“HA”LL find **congruence**.

A flow into **TODAY’S** **DAY-TRIP** **DREAM** where we’re in **CHArge**

Of our **view**.

Subjective or objective we can see a difference between the **two**.

If objective **THIS** means a specific goal **HAS** been **set**.

The goal, when subjective, allows all & any **outlet**.

Whether we see it to fruition **exACTly** as we imagined or **not**

Matters not as much as the receiver’s momentum soil - the **vib**rational **plot**.

The balance between the **DREAM** & it **BE TODAY**

Hinges directly on **WHAT** **WE SAY!**

Negative thoughts are 4 to 7 times **STRONGER** than a positive **one!**

And IF **SPOKEN** - 10 x stronger yet meaning 40-70 waves reducing our fun!
