

===== #31 **RESURRECTION DAY** =====

Today, most of the world celebrates our Lord's Resurrection,

But in their personal lives haven't made the connection

Between **what** Jesus did, the cross **and why**,

And how we are to pick up our own cross and die!

They all say Christ died, and was buried, and rose from the dead

But the deeper meaning never reaches their hearts from their head.

While they confess with their mouths the things that occurred

The true message of Love has been lost or obscured.

God's trying to show them that He's given them the tools

To learn how to love Him and what are the rules.

He's given them His Word, in the flesh and in writing

But they refused to study; they were content on just fighting

With whoever God sent them to show them the way.

They'd just tell them, "Oh, that's just what you say!"

But would never take it to heart what He was trying to get through.

They'd say, "***I'm free to love God my way!***" ***They thought that they knew.***

But there's only one way no matter what they say

And God showed us all on that first Resurrection Day.

It's by sacrificing our flesh and picking up our own cross

And by rising to a new life with Christ as our boss!

You must accept the fact that you were born a sinner

And humble yourself; follow Christ to be a winner,

Submit to His teachings; make an effort to learn,

And spread the "**GOOD NEWS**" **when it comes up your turn!**

For that is what Jesus did, His whole life as our lesson.

He did what the Father told Him and there was no guessin'.

He was lead by the Holy Spirit after it came down as a Dove

And He expressed God's will by showing everybody Love!

He told them the truth and said they should believe:

In this life it's always better to give than receive.

Then you'll receive eternal blessings and life in God's kingdom

If you'll be quick to forgive and God's praises...you singed um'!
