

## #50 Are You Ready To Die?

You need to know the answer to  
One of the top three questions I'm going to ask you;  
**And that is: Are You Ready To Die?**  
I said you need to know it and I'll tell you why.

I'll try to explain it simply, in terms familiar to all mankind.  
With their knowledge of physics and math and astronomy, scientists  
Think they can find  
The answer to how life started, the how and the whys  
From the clues they see on the Earth, in the waters and the skies.

The popular theory is that of the big bang.  
And upon this assumption their presumptions do hang:  
That the laws of the Universe have always been the same.  
But can they answer from where all this matter came?

*All matter comes from matter, a fact no one can disprove;  
And energy can't be destroyed, lost or completely removed.  
But it must change its form, like from friction into heat,  
Unless it's a miracle - and only God can accomplish that feat.*

Can life come from a non-living primordial soup?  
Or does life come from life in a continual loop?  
Has anyone, besides God, ever made an intelligent life form with the  
Ability to reproduce?  
Do you believe that a golden egg can come from a goose?

When you look at anything, there's **always a design**.  
They say: form follows function, it's not hard to follow that line.  
It will accomplish the task the designer has intelligently programmed in.  
And my friends, we humans in our flesh were made to decide about sin.

## #50 Are You Ready To Die?

**The second question is:** Do you believe that there is sin  
And do you know how it started and when it did begin?  
What's the reason for death? Is there life afterwards?  
Would you rather trust God or a world full of nerds?

I know these questions bring you right to the point of strong conviction.  
Now please, just try to relax and try not to have a conniption.  
I'm trying to get you to listen to the truth, not a lie.

**Your soul WILL again see life even after you die!**

**The third question is:** Do you really want to take that chance  
And what proof do you base it on? You must...and already have taken a  
Stance  
On whether you deny God's existence and His requirements for seeing  
Heaven.  
Please use your mature adult mind and not one like you're still seven!

The best message I have for you is that you still have time  
To come to your senses and it won't cost you a dime;  
But it **WILL** determine if you'll live for **the next eon** in Heaven or lose out  
While in Hell.

**Can you wait to decide tomorrow? Will you still be here? Can't tell !!!**
