

LOCKNCLIMB®

Ergonomic Safety Ladder Stands for Utility Truck Maintenance

44LNCTRKENG stable base slides around the tire. Yellow handrails facilitate climbing using OSHA-recommended 3 points of contact to the wide slip-resistant platform to service engine, wipers, windshield, running lights and other points around the entire truck.

Made one at a time by craftsmen in the U.S.A.

Specifications

OSHA rated 1-A Special Purpose. • Meets or exceeds ANSI specifications. • Platform provides durable comfortable foot support for extended standing and range of movement. • Industrial 6061-grade aluminum support base and frame. • Safety stickers applied to ladder rails. • Made in the U.S.A.

The 20LNCMINISTAND fits between the 44-inch tire and bumper and allows the maintenance technicians a stable slip-resistant platform to work on the truck engine rather than standing on slippery tires or struts. The 15LNCMINISTAND is employed when working on utility truck engines with 42-inch tires.
