

One Piece and Dragon Ball take over Australia and New Zealand with new official gaming accessories

The iconic worlds of One Piece and Dragon Ball are set to make their mark in Australia and New Zealand with the release of brand-new, officially licensed gaming products.

These items are designed to enhance the gaming experience not only in terms of aesthetics and customization, but also by providing protection for your console.

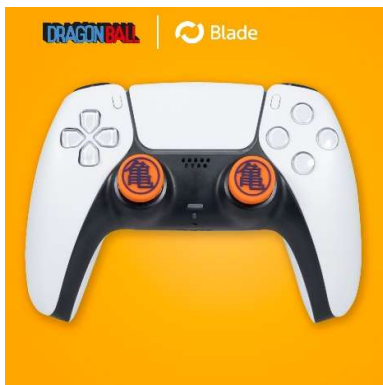

If you're someone who wants to keep your controller looking fresh from day one and you grew up with Luffy, Goku (or both!), then you're in luck.

Official PS5 Grips

🏴‍☠️ One Piece: Featuring a raised design of Luffy's head with a resin droplet for a premium, distinctive finish. They provide a firm grip while protecting the joystick.

🐉 Dragon Ball: Embossed with the “Kame” kanji, these grips deliver Super Saiyan level handling and a striking visual touch.

These products ensure a grip that is unique, exclusive, and official, delivering a level of quality and authenticity that sets them apart.

Exclusively at EB Games Australia. Get yours today.
