Hair growth serum

ACTS21926

Description

Moisturizing serum with hair growth properties to fight hair loss. Procapil works to increase blood flow in the scalp to nourish the scalp, thicken brittle and thinning hair while fighting hair loss, and strengthen the hair from root to tip. Hairiline® reduces the C. acnes / S. epidermidis ratio, which is strongly increased

in the case of alopecia, causing micro-inflammation. Also, it rebalances the M. globosa and M.restrica ratio. Redensyl targets stem cells and human fibroblasts from the dermal papilla to improve hair growth while reducing hair loss.
