

MIRRI CRANES AND RIGGING SHED
INSTALATION CAPABILITY STATEMENT

Capability statement

Company overview

Mirri Cranes and Rigging shed installation is proudly a family owned and operated company, with in the Mirri cranes family, branching from general crane hire, road works, large panel and steel erection jobs, mining and even stevedoring and Warf work. Established in Coffs Harbour on the Mid- North Coast of NSW and service from Newcastle to Brisbane and the blue mountains region from Penrith to orange and inner NSW installing all sizes and design of shed.

We believe strongly in the importance of upholding the name of the shed provider we are installing for and feel the best way is to always complete the work to a high-level standard no matter the size or location of each installation. To accomplish that successfully every time Mirri cranes has a dedicated site inspector who, inspects and asses every job at the start so the job can be accomplished the best way and then inspects the job at the end with a detailed checklist that all jobs must comply with to meet Mirri cranes and rigging finished standard. If it is not successful, we send our employees back to rectify these mistakes and bring it to Mirri cranes and rigging standards. This is all a free service supplied by Mirri cranes to ensure the best quality and service possible with every installation.

Mirri cranes and rigging also owns all our own equipment and cranes helping us to be more flexible in our pricings to help the customers. Mirri cranes also prides ourselves on the knowledge of our senior employees in both labour and office, also teaching and passing on there knowledge to our young employees coming through the ranks. This helps our instal team Aswell with being able to teach our youth rigging aspects on smaller scale before advancing into large scale jobs.

We are proud to be an indigenous owned company and see our role within the Aboriginal community as essential to who we are as a company. We are passionate about providing opportunities for young Aboriginal people through education and training and currently provide sponsorship to Kempsey Mustangs Rugby League Club and the Coffs Harbour Music Outreach program. Both of our senior managers are members of on the board for the Aboriginal land council for Gilgandra, our tribe of origin- Kamilario.

we believe strongly in the importance of encouraging a healthy and positive culture, with an open and inclusive reporting policy.
