

fast facts about

NC Men's High School Volleyball

Who is the NCBVA?

- In their 9th year, NCBVA is a Volunteer Organization created to help grow the sport of Boys'/Men's Volleyball in NC with a mission to be an NCHSAA sanctioned sport.
- We coordinate efforts across the state to ensure that teams operate by NCHSAA guidelines wherever possible.

Why Men's HS Volleyball?

- One of the fastest-growing high school sports in the US, with over 345 colleges offering men's volleyball programs nationwide providing an abundance of college opportunities.
- Spring Season = Increased opportunity for athletes and an open gym! Season runs mid-February to early May, with an option for abbreviated season from late-March/April to early May.

Why Start a Club Team?

- **Explosive 2000%+ Growth:** From 7 NCHSAA schools in '22 to 108 schools in '25, projected to add 30+ more next season.
- **Support Network:** We work with National Programs like the AVCA, First Point and USA Volleyball. Our NC efforts are also endorsed by notable figures like Joe Sagula and USA Men's Olympic Coach Karch Kiraly.
- **Sanctioning:** After sustaining the number of schools needed for 2 seasons, we will be asking for a sanctioning vote at the NCHSAA Spring 2026 meeting. If approved, the first official season could be Spring 2027.
- **State Championships:** We have held a championship every season, but in 2026 we will crown at least 4 Champs!

Is it really easy to Start? Yes!

- You already have the materials required (net, gym, balls, can even repurpose old uniforms)
- Doesn't require huge numbers of athletes. Most schools have a JV/V, but you can compete with just 7-8 guys
- NCBVA helps organize the season, answers questions, helps coordinate funding/budget, schedules the games, plans playoffs/championships. We welcome an ADs involvement, but it's not necessary. Try to take as much off their plate as possible.

Funding and Costs?

- Only require an R1 referee to lower official expense. No other required equipment.
- Grants Available: \$1,000 for 1st year teams/\$500 for 2nd year from Carolina Region. Application opens 1/1/26
- Self-Funding Options: Student Club Fee, Booster.com Online Fundraiser and Admission Fee for Matches
- Self-Transport: 98% of participating schools are self-transport. We can provide waivers if needed.

Benefits?

- Enhanced student engagement through sports and provide new athletic opportunities for a whole new population of student athlete. Men's Volleyball does not typically poach from other sports.
- Community & National Support: Join a growing community with extensive resources. Over 2500 young men played high school Men's volleyball across the state this past season!
- Be part of a generational impact at your school in a sport that has been in the Olympics since the 1950s. It's growing Nationwide at an outstanding pace with sanctioning/growth efforts in every state, even Alaska!

**West Forsyth High School
2025 4A School State Champs**
