PROFESSIONAL SUMMARY

Environmental Health & Safety professional with experience supporting compliance, risk reduction, and process improvements across operations. Skilled in developing training materials, visual communications, signage, and awareness campaigns that support employee engagement and safety initiatives.

Experienced in using Adobe Creative Suite to transform complex technical and regulatory information into clear, visually engaging content that supports employee engagement and organizational goals.

EDUCATION

BFA Digital Animation

Kennesaw State University

2015 - 2021

EXPERIENCE

EHS Specialist I &II

2024 - Current

BD | Becton Dickinson

- Support the design and implementation of facility-wide safety communication campaigns, creating visual content that increases employee awareness and reinforces key safety initiatives.
- Create print and digital communication assets using Adobe Creative Suite, including Photoshop and Illustrator
- Collaborate with print vendors to develop production-ready artwork that aligns with corporate branding.
- Create department-specific visual aids, signage, and graphics to communicate job aids, alerts, and critical information in a clear and engaging format
- Develop and deliver training programs for associates, contractors, visitors, and new hires.
- Design and maintain monthly communication calendars featuring safety procedures, key updates, and reference materials for employees across all departments.
- Conduct risk assessments on equipment and processes to identify knowledge gaps, training opportunities, and improvement initiatives.
- Lead and support incident investigations using Root Cause Analysis and 5 Whys tools to identify underlying causes.
- Support site-wide communication by sharing safety initiatives, project updates, and operational goals through regional EHS calls, Tier management meetings, and townhalls.

KEY ACHIEVEMENTS

● Visual Communication

Developed visual communication materials including brochures, signage, job aids, and monthly campaigns that supported organizational initiatives and employee engagement.

● Improved Emergency Response Program

Increased workforce readiness by expanding CPR/First Aid certification among associates and delivering hands-on fire extinguisher training across all sites.
