High Volume Capacity
High Velocity Sales
Consistent Flavors, Color, Quality
Clear Wrapper
Durable Plastic Stick

The cheapest method of making lollipops is to use die-stamped equipment. The die-stamped method is when the candy is pulled from a rope and stamped into a lollipop shape. It has a compromised flavor, leaves a rough texture, and produces air pockets. That is why those pops have a full color wrapper around them. Customers won't see the poor appearance of the product.

Successful Track Record

Original Gourmet Lollipops can be found in over 200,000 retail locations – Globally!

Lollipops became a TOP 5 SKU at many front ends. Demand surged.
