Application for Metered Water and/or Sewer

We, the undersigned, hereby make application to Red Lion Municipal Authority (the “*Authority*”) for water and or/sewer service and agree to pay for the same at the scheduled rates and according to the rules of the Authority; also, to assume responsibility for all water and/or sewer bills for such services, until notice has been given in writing at the office of the Authority that requested services shall be discontinued. Additionally, if the undersigned is only currently applying for sewer service, the undersigned understands that they are required to apply for water service within twenty-four (24) months from issuance of the property’s Sewer Connection Permit. If the undersigned does not apply for water service within the above-mentioned time frame, the property’s Sewer Connection Permit may be revoked, the sewer connection may be plugged, and/or the undersigned may be required to pay the current (at the time of the failure to apply for water service) water tapping fee and a reasonable monthly water charge to be determined by the Authority in its sole discretion. If the undersigned is only currently applying for sewer service, the undersigned understands they must sign a Declaration of Restrictive Covenant in a form acceptable to the Authority.
