2021 MOBILE ELEVATED WORK PLATFORM TRAINING AND CERTIFICATION

PRICING

Private classes can be book at our facility or with the proper facilities and equipment, we can bring the training onsite at your location.

MEWP are required to be onsite and available for hands-on training and evaluations. Equipment must be in good working conditions and be certified. The operator's manual is required to be with equipment along with daily inspection sheets.

PRE-REQUISITE:

Participants must show proof of their Working at Heights card prior to completing their hands-on evaluations.

We offer two learning options for this course: Classroom/ Instructor-led and Blended.

CLASSROOM TRAINING- PRIVATE COURSES (4-6 HOURS)

1-3 Participants:	\$725.00/ Session
4-5 Participants:	\$925.00/ Session
5-10 Participants:	\$1200.00/Session

BLENDING TRAINING – AVAILABLE APRIL 2021

The blended learning approach is simply acknowledging that one size does not fit all when it comes to training. In a nutshell, blended learning means using more than one training method to train on one subject.

For this course, participants will be able to complete a 2.5-hour online theory, instructor led training course vs sitting in a classroom.

Participants will then be able to schedule their one-on-one hands on training/ evaluation at our facility at a convenient time for them.

Cost: \$180.00/Participants (Includes: Online Course \$125 and Evaluation at our facility \$55)

**** In order to receive your full certification, you need to complete the online course and a practical equipment evaluation. Online certificates will be issued immediately upon completion and specify theory training only.

Safety – Always!

Always....

- Work in compliance with your provincial Occupational Health and Safety Regulations
- Read and follow your employer's procedures for Health and Safety.
- Read and follow any equipment Operator's and Manufacturer's Manual
