

INSTRUCTIONS

PRODUCT DETAILS

Coins have existed since at least 600 BCE, coin rolls have existed since 1875, but a coin roll opener was not been invented until now!

Introducing Roll Ripper® -- a durable, efficient, and easy-to-use hand-held tool designed for safely cutting both plastic and paper coin rolls for most major coin-based currencies. Made from high-quality injection-molded plastic, this tool features a patented carbon steel blade that is guaranteed to last one year of regular use. Its sleek, ergonomic design includes firm silicone thumb grips for added comfort and an automatic blade guard for safety.

IMPORTANT SAFETY INFORMATION

To reduce the risk of personal injury or property damage when using Roll Ripper®, basic safety precautions should always be followed, including:

1. Only use the tool for cutting coin rolls. Avoid using it for any other purpose to prevent damage or injury.
2. Ensure the blade guard covers the blade when not in use.
3. Store the tool out of reach of children at all times.
4. Do not apply excessive force when using the tool. A gentle, fast, and controlled downward motion is sufficient for cutting.
5. Inspect the tool before each use. Do not use if damaged.
6. Always hold the tool by the curved side with one hand, ensuring a firm grip.
7. Clean the tool after each use and store it safely with the blade guard engaged.

HOW TO USE

To properly use the Roll Ripper®, perform the following:

1. Grip the curved side of tool in one hand; the thumb grips allow comfortable use with either hand.
2. Hold a single coin roll (paper or plastic sleeve) in the other hand.
3. Align the top of the coin roll with the blade using the tool's guiderails.
4. Press against the coin roll and then down on the tool to slice through the roll in a single, quick swipe motion.
5. Once pressure is released, the red blade guard automatically covers the blade for safe storage.

QUESTIONS AND ANSWERS

How can I tell if Roll Ripper® is compatible with my local coin-based currency?

- Roll Ripper® is compatible with most globally traded currencies including: USD (\$), EUR (€), GBP (£), JPY (¥), KRW (₩), and many more.
- Roll Ripper® is able to accommodate coins with a diameter between 17.78 mm (0.7 in) and 26.49 mm (1.043 in).

Will Roll Ripper® work on non-circular coins or tokens?

- Roll Ripper® is designed for cutting circular coins in cylindrical coin rolls. This tool is not recommended for coins or tokens that are non-circular.

STORAGE AND CLEANING RECOMMENDATIONS

Wipe with a soft, damp cloth. Do not submerge or use harsh chemicals. Store in a dry safe place with the blade guard in place. NOTE: The blade is not designed to be sharpened or removed. Once the blade becomes too blunt to cut safely, replace the tool with a new one.

TOOL SPECIFICATIONS

Dimensions (Overall):

1.75 inches (H) x .75 inches (W) x 3 inches (L)

Weight:

0.8 oz (23 g)

Origin:

Made in the USA

Material:

ABS Plastic, Carbon Steel, Silicone

Additional Information:

UPC: 727785112604

Patent ID: US-11267151-B1
