DIRECTOR'S STATEMENT

Brandon Govender

DIRECTOR

At Stealth Secure Solutions, our mission is simple: to protect what matters most. In today's world, safety and reliability are not luxuries – they are necessities. We are committed to delivering cutting-edge security, automation, and infrastructure solutions that give our clients peace of mind, whether it's their homes, businesses, or industrial facilities.

With a team of skilled professionals and years of hands-on expertise, we pride ourselves on quality workmanship, innovative technology, and customer-focused service. Every project we undertake is built on a foundation of trust, integrity, and excellence.

As the director, I am dedicated to ensuring that Stealth Secure Solutions remains at the forefront of our industry, continuously evolving to meet the growing needs of our clients. Our goal is not only to secure properties but to build long-term relationships based on confidence, safety, and reliability.

Stealth Secure Solutions

ABOUT COMPANY

Stealth Secure Solutions, a subsidiary of Stealth Holdings, is a dynamic, multi-disciplinary company delivering security, automation, infrastructure, and facilities management solutions across South Africa. As a full-spectrum physical security and structural solutions company, our service offering includes gate automation, garage doors, CCTV surveillance, industrial roller shutter doors, electric fencing, alarm systems, intercoms, and access control. We further provide precision steel manufacturing, aluminium windows and doors, IT and networking solutions, as well as essential facilities services such as air-conditioning, plumbing, and industrial & commercial cleaning.

What sets us apart is the expertise of our Director, Brandon Govender, a qualified Structural and Civil Engineer. Through Stealth Holdings, he brings specialized engineering services such as structural design, civil works, building assessments, and project management. This enables us to integrate security and infrastructure with professional engineering oversight — ensuring projects are not only secure but also structurally sound and compliant with industry standards.

At Stealth Secure Solutions, we pride ourselves on offering complete, end-to-end solutions that address client challenges across residential, commercial, and industrial sectors. From engineering and construction to security and facilities, our work is guided by integrity, innovation, and quality. We don't just provide services — we engineer solutions that deliver peace of mind, long-term reliability, and measurable value.

VISION & MISSION

Vision

Our vision is to be South Africa's leading multi-disciplinary solutions provider, delivering innovative, reliable, and fully integrated services across security, automation, infrastructure, engineering, and facilities management. We strive to create environments where residential, commercial, and industrial clients experience complete peace of mind, knowing their properties, assets, and operations are secure, efficiently managed, and designed for long-term sustainability. Through continuous innovation, investment in technology, and a commitment to excellence, we aim to set the benchmark for quality, professionalism, and client satisfaction in every project we undertake.

Mission

Our mission is to provide comprehensive, tailored solutions that solve real-world problems for our clients, integrating security, automation, engineering, infrastructure, and facilities management under one trusted brand. Guided by the expertise of our Director, a qualified Structural and Civil Engineer, we ensure that every project is executed with precision, structural integrity, and compliance to industry standards. We are committed to delivering high-quality services using advanced technologies, practical solutions, and a client-focused approach. At Stealth Secure Solutions, we build long-term partnerships based on trust, professionalism, and accountability, providing measurable value and peace of mind with every engagement.

OUR SERVICES

Gate Automation

We design, supply, and install fully automated gate systems for residential, commercial, and industrial properties. Our solutions blend advanced technology with durability for secure and convenient access. Each system is customized to meet client needs, featuring safety elements, smart controls, and low maintenance. We also offer regular maintenance and technical support for long-term performance, ensuring peace of mind and enhanced security that aligns with aesthetic and functional requirements.

Garage Doors

Stealth Secure Solutions offers comprehensive garage door services, including supply, installation, and maintenance of sectional, roller, and industrial doors. Their focus is on security, durability, and smooth operation, with customized designs for commercial, industrial, and residential properties. They enhance safety, energy efficiency, and aesthetics, and provide technical support and routine maintenance plans to ensure reliable performance and client satisfaction.

CCTV SURVEILLANCE

Our CCTV surveillance systems offer high-resolution monitoring for residential, commercial, and industrial clients, with customized solutions that include remote access, smart analytics, and real-time alerts. Skilled technicians ensure optimal installation, while ongoing maintenance and support guarantee reliability. Stealth Secure Solutions provides advanced surveillance to protect assets and enhance security.

Industrial Roller Shutter Doors

Stealth Secure Solutions provides and installs durable industrial roller shutter doors for warehouses, factories, and commercial spaces, focusing on security and functionality. Each installation is customized to meet specific dimensions and security needs, ensuring compliance with industry standards. The company also offers ongoing maintenance and technical support, promoting efficiency and peace of mind for industrial clients.

OUR SERVICES

Electric Fencing

We provide electric fencing systems for residential, commercial, and industrial properties, focusing on safety and effectiveness. Our low-maintenance technology integrates with other security measures, ensuring precise installation and compliance with safety standards. Customizable solutions offer reliable protection against unauthorized access. Stealth Secure Solutions also provides ongoing maintenance and technical support for consistent performance, keeping properties safe and secure.

Alarm Systems

Stealth Secure Solutions offers alarm systems for homes, offices, and industrial sites, featuring advanced sensors and communication technologies tailored to client needs. Professional installation ensures functionality and safety compliance, while regular maintenance and support guarantee reliability. The systems protect assets, prevent unauthorized access, and provide peace of mind.

Intercoms & Access Control

Stealth Secure Solutions offers customized intercom and access control systems for residential, commercial, and industrial properties, including audio, video, and biometric options. These systems enhance security through efficient communication and controlled entry. The team provides training, maintenance, and support to ensure reliable performance, leveraging advanced technology for improved security and convenience for property owners.

Steel Manufacturing & Aluminium Windows & Doors

Stealth Secure Solutions offers customized steel fabrication and aluminum window and door solutions for residential, commercial, and industrial properties. Each product is tailored to client specifications, ensuring strength, durability, and aesthetic appeal. Skilled professionals handle installations for structural integrity and performance. The company also provides ongoing maintenance and support, enhancing security, energy efficiency, and overall visual appeal for long-lasting results.

OUR SERVICES

IT & Networking Solutions

Stealth Secure Solutions provides IT and networking services, including system design, installation, and maintenance for businesses. Their tailored solutions ensure secure, reliable operations and support connectivity, data management, and communication. They offer ongoing support and upgrades to optimize network performance, helping clients enhance productivity, efficiency, and business continuity.

Air-conditioning & Plumbing

Stealth Secure Solutions offers professional air-conditioning and plumbing services for residential, commercial, and industrial clients, focusing on installation, maintenance, and repairs. Their systems prioritize efficiency, reliability, and safety compliance. The team provides tailored solutions for climate control, water management, and energy efficiency, along with ongoing support and troubleshooting to ensure consistent operation. Their services help clients maintain comfortable, safe, and functional environments.

Industrial & Commercial Cleaning

Stealth Secure Solutions offers industrial and commercial cleaning services to maintain hygienic and professional environments in offices, warehouses, and production facilities. Their services include routine and deep cleaning, with high-quality products and techniques to prevent contamination and enhance productivity. The trained team ensures efficient and reliable cleaning, with flexible scheduling, ongoing support, and quality monitoring to meet operational and regulatory standards.

Engineering Services (Structural & Civil)

Stealth Secure Solutions, led by a qualified structural and civil engineer, offers expert engineering services such as design, planning, project management, and civil works. We focus on safe, durable, and compliant infrastructure for residential, commercial, and industrial clients, providing site assessments, structural evaluations, and construction oversight. Our innovative, practical, and cost-effective solutions cater to specific client needs, ensuring projects are executed efficiently and safely to the highest professional standards.

HOW WE WORK

At Stealth Secure Solutions, we pride ourselves on transforming our clients' ideas and challenges into fully realized, practical solutions. Every project begins with understanding the client's vision, followed by meticulous planning, precision execution, and seamless delivery. Our goal is to ensure that every solution we provide is tailored, reliable, and exceeds expectations, combining technical expertise, innovation, and personalized service.

1

The consultation and vision-sharing process starts when a client reaches out with their ideas or challenges. We actively listen and engage in discussions to understand their objectives and specific requirements. Our team evaluates the project scope and site conditions, providing preliminary guidance to align expectations. This foundation allows us to develop solutions that reflect the client's vision and address potential challenges. Transparent communication ensures alignment between the client and our team for a successful project.

2

After defining the client's vision, our skilled engineers and technicians create actionable solutions through detailed designs, material selection, and advanced manufacturing processes. We ensure precision, durability, and quality while adhering to industry standards. Our team manages the entire implementation process, including assembly, fabrication, testing, and quality assurance, delivering innovative, efficient, and cost-effective solutions that meet complex requirements across various engineering disciplines.

3

Delivery, Installation & Support

After the solution is manufactured, we manage the safe delivery, professional installation, and full commissioning of the project to ensure it operates seamlessly and aligns perfectly with the client's expectations. Our team supervises the installation process, testing each component to guarantee optimal performance, functionality, and safety. Beyond delivery, we provide ongoing support, maintenance, and follow-up services to ensure the solution continues to perform reliably over time. This comprehensive approach allows clients to have peace of mind, knowing that Stealth Secure Solutions stands behind every project we undertake, delivering results that not only meet but exceed expectations while creating lasting value and satisfaction.

OUR VALUED PARTNERSHIPS

Sanral

Instatoll

SANRAL

SOUTH AFRICAN NATIONAL ROADS AGENCY SOC LTD

Reg.No.1998/009584/30

BUILDING SOUTH AFRICA
THROUGH BETTER ROADS

InstaToll[®]

Stealth Secure Solutions is proud to be a trusted contractor for two of South Africa's major organizations: Sanral and InstaToll. Our partnership with Sanral allows us to contribute to the safety and efficiency of the country's road infrastructure, while our work with InstaToll highlights our expertise in delivering innovative security and access solutions. These collaborations reflect our commitment to quality, reliability, and excellence across all projects.

CLIENT TESTIMONIALS

Stealth Secure Solutions surpassed expectations with the installation of industrial roller shutter doors and an electric fence. Their transparency, consistent updates, and the final fantastic, functional result were highly appreciated.

Leratho Mkhize
Richard's Bay

We wanted new aluminium windows and doors for our home. The team measured everything accurately, installed it without any hassle, and it looks amazing. Super professional and reliable.

Charles Dlamini
Stanger

Stealth Secure Solutions combines hands-on expertise with engineering precision to provide reliable, long-lasting solutions. Led by a qualified structural and civil engineer, the company focuses on practical efficiency and detail in projects ranging from beams to security systems. Their goal is to turn client visions into reality, supported by positive reviews.

These guys are excellent! We needed extra beams and CCTV cameras in our warehouse. Brandon and his team were quick, clear in their explanations, and completed the job smoothly. Everything is solid and functioning perfectly.

Keith Naidoo
Pinetown

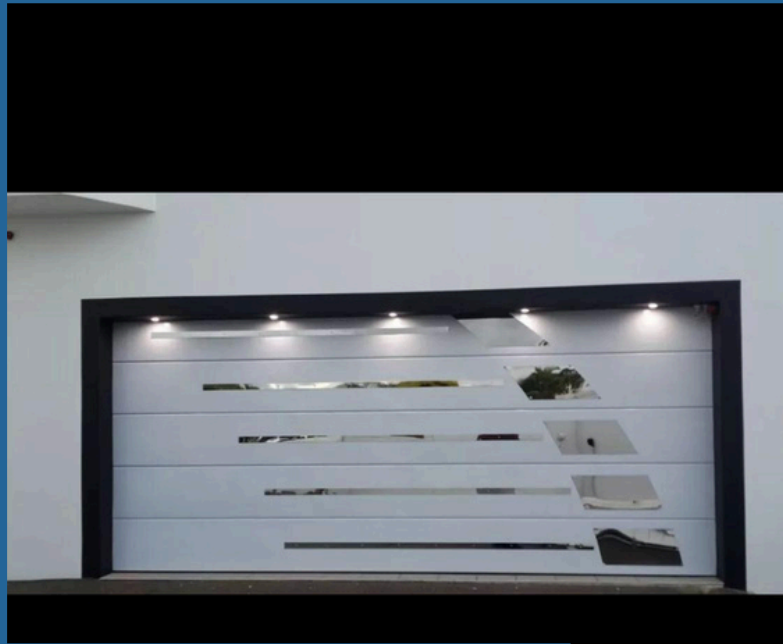

Whenever I have any issues regarding my alarm, CCTV, gates, etc - I always call Brandon first and he sends out his team almost instantly and they sort my stuff out fast and efficiently.
