Core Capabilities

- **Expertise in Acupressure Techniques:** Extensive knowledge and practical application of acupressure techniques for pain relief, grounded in years of study and experience.
- **Instructional Video Production:** High-quality production of instructional videos, with a focus on clarity, accessibility, and effectiveness in teaching acupressure techniques.
- **Holistic Pain Management Solutions:** Offering natural, non-invasive methods for pain relief that can be easily implemented by individuals at home.
- **Educational Content Development:** Creation of educational materials that are easy to understand and apply, tailored for both beginners and advanced practitioners.
- **Customer Support and Engagement:** Dedicated support for customers, including guidance on selecting the right instructional videos and ongoing advice for effective acupressure practice.
- **Digital Content Delivery:** Expertise in delivering content online, including streaming and downloadable video formats, ensuring ease of access for customers worldwide.
- **Innovative Health Solutions:** Commitment to developing and promoting innovative solutions for pain relief that are grounded in traditional practices and supported by modern technology.

Mission Statement

Our mission is to empower individuals with the knowledge and tools to naturally and effectively manage pain through acupressure techniques. We are committed to providing high-quality, accessible instructional content that promotes holistic health and enhances well-being. By combining traditional healing practices with modern technology, we strive to make natural pain relief attainable for everyone, fostering a healthier and more balanced life.

Key Personnel

Dr. Daniel Marez, DOM, L.Ac.

My medical journey began in the emergency room, where the fast-paced environment taught me to be creative, decisive, and results-oriented. Every injury presented a unique challenge, requiring immediate action and effective solutions. This experience shaped my core philosophy: patients come in with pain, and they leave without it.

The knowledge I gained from my Chinese masters in acupuncture allowed me to develop innovative techniques for treating pain and various medical conditions. My commitment to this approach deepened when I became a practitioner for major health organizations like Blue Cross Blue Shield, Presbyterian, Lovelace, Cigna, and United. This affiliation motivated me to elevate my practice to meet the high standards of the medical system.

Recognizing the limitations of conventional pain management, I focused my acupuncture practice on delivering quick and effective pain relief. At health fairs, I treated hundreds of people with a system I developed, using acupuncture points that patients could easily remember and even tattooed as reminders. I am honored to share these proven techniques with you because they truly work.
