

Trusted Advisor Program

OVERVIEW:

The **Trusted Adviser program** is for executives who are looking to lead as their best selves, boost performance and accountability, spend more time on growth and less time supervising routine tasks, and make better decisions amidst turbulence and uncertainty.

You meet with me privately in person, by zoom, or phone for regularly scheduled sessions to set goals, remove roadblocks, overcome obstacles, and develop action steps that get results. Additional support is available via **unlimited calls, emails, or other means** in between your regularly scheduled sessions.

We will operate on a renewable monthly cycle after the first quarter. Once you sign up for the program we work together to build a game plan that includes your quarterly goals, action steps to meet them, and the right meeting frequency.

RESULTS:

Here is a partial list of results my clients typically experience:

- **Improved Insight** - seeing your business and the world with greater clarity.
- **Increased Self-Awareness** so you lead with authenticity, confidence, and balance.
- **Improved organizational culture** that leads to more engaged employees and lower turnover rates.
- **Better Strategic Thinking and Decision-Making** that helps your organization achieve your vision.
- **Increased influence** with employees, clients, coworkers, and those you lead.

"Don't hesitate to engage with Bob. Whatever the issues are he will hear you and will help you work through them. He listened to what my firm's challenges were and was able to address them based on what we needed as opposed to a pre-packaged program.

Would highly recommend!"
