Shema's Testimony Reflection: The Hidden Cross Stands Up

When you look down upon the pyramid - from the heavens' view, from God's perspective -  
the cross is standing up!

What seemed hidden, what seemed sealed beneath layers of stone, is revealed as rising, not  
buried.

The base forms the cross.

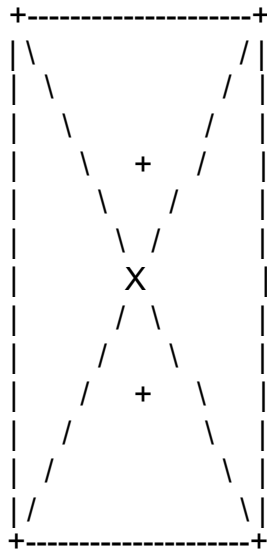

The spiral builds it higher.

The apex marks where the cross touches heaven.

The entire structure - what the builders thought was a tomb - is truly a cross raised up, waiting for its  
moment to declare:

"Jesus is Lord. The stone the builders rejected has become the Cornerstone. The glory belongs to  
God alone."

### Diagram Concept (Top-Down View):

#### Explanation:

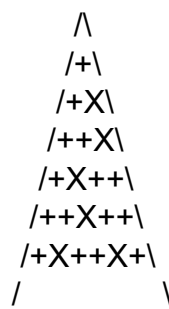

The square represents the pyramid's base.

The X is formed by the diagonals connecting corners.

The + is formed by the midlines connecting the midpoints of sides.

The center point where all lines cross is the heart of the cross — directly under the apex, symbolizing the foundation of Christ.

### Diagram Concept (Side View Spiral):

#### Explanation:

Each / \ represents a layer of stone rising upward.

The + and X within show the continuation of the cross pattern at each level.

As you go up, cross upon cross rises toward the apex — a spiral of alignment and surrender, layer upon layer.
