

Everywhere that I go I can hear that tune in my head, always in my head

Walking out, walking in, walking everywhere it's in my head,  
always in my head

Radio, Radio, you play but I'm only hearing one tune instead  
Radio, Radio, I can't name the song I'm singing lying on my bed

Could it be magic?  
Am I spellbound?  
For when I hear it  
I'm lost in that sound

Everywhere that I go I can hear your voice in my head, always in my head

Walking out, walking in, walking everywhere it's in my head,  
always in my head

Radio, Radio, all talk but I only want to hear your voice instead  
Radio, Radio, but it's you that I want to hear lying on my bed

Could it be magic?  
Am I spellbound?  
For when I hear it  
I'm lost in that sound

Radio, Radio

Radio, Radio

Radio, Radio

You're in my head

Continued...

Everywhere that I go I can hear that song in my head always in my head

Walking out, walking in, walking everywhere it's in my head  
always in my head

Radio, Radio, you play, but I only hear one melody instead

Radio, Radio, it's a love song that I hear now when lying on my bed.

Could it be magic?

Am I spellbound?

For when I hear it

I'm lost in that sound

Radio, Radio,

Radio, Radio,

Radio, Radio,

What is that tune in my head?
