

All those days I spent alone  
All those nights I dreamt of someone like you  
Then seeing your smile  
I was falling in love

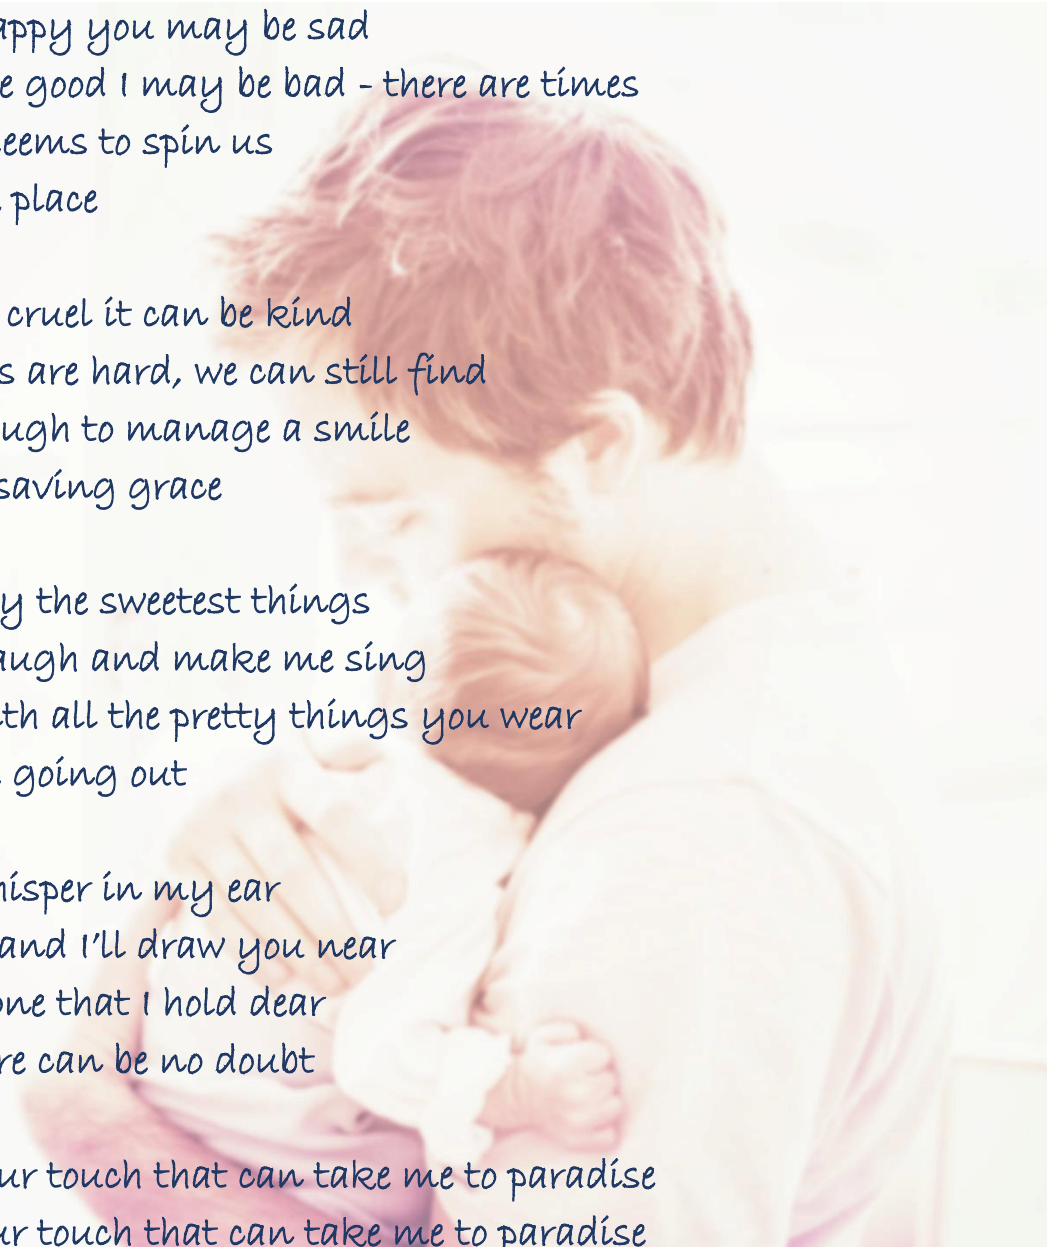

When you came into my life  
You lit the flame you brought the light  
Turned the winter into the spring  
I thank heaven above

You can say the sweetest things  
Make me laugh and make me sing  
Wow me with all the pretty things you wear  
When we're going out

You can whisper in my ear  
Take my hand I'll draw you near  
You're the one that I hold dear  
Of that let there be no doubt

'Cos it's your touch that can take me to paradise  
Yes it's your touch that can take me to paradise

Continued...

I may be happy you may be sad  
You may be good I may be bad - there are times  
The world seems to spin us  
Into a dark place

Life can be cruel it can be kind  
When times are hard, we can still find  
A way through to manage a smile  
That's our saving grace

You can say the sweetest things  
Make me laugh and make me sing  
Wow me with all the pretty things you wear  
When we're going out

You can whisper in my ear  
Take my hand I'll draw you near  
You're the one that I hold dear  
Of that there can be no doubt

'Cos it's your touch that can take me to paradise  
Yes it's your touch that can take me to paradise  
'Cos it's your touch that can take me to paradise  
Yes it's your touch that can take me to paradise
